Six-Pack Paxton loves three things: being a firefighter, riding his Harley, and his bachelorhood. That is, until the curvaceous Kat McKenna falls into his arms at the scene of a fire--and melts the six-foot-six tower of bronze muscle! But just as passion ignites between them--and they explore new heights of ecstasy--a ruthless arsonist with a deadly secret and a thirst for vengeance becomes their worst nightmare. Presents a decades-worth of photographs featuring the famous motorcycles, chronicling the company's greatest bikes from the early 1900s to today, providing

specifications and lore for each. Noah hopes buying the classic '68 Camaro from a fellow firefighter's widow will ease some of the grief weighing down his heart. When a noise under the hood sends him looking for a mechanic, he finds so much more. Big and burly Hoyt grabs Noah's attention right off, and not just because of his bad-boy biker looks and ice-blue eyes. The fact Hoyt is a Dom and a member at Club LaForge certainly interests Noah. Hoyt never thought he'd feel that rush with a man again after his partner died, but his body certainly reacts to meeting Noah. LaForge seems like the

perfect place to meet and work off some energy and explore this sudden flood of desire. The heat between them starts to burn through their emotional barriers, whether the men are ready to make a deeper connection or not. Each novella in the Delta Fire series is a standalone story that can be enjoyed in any order. Series order: Book 1: Burning Up

Harley-Davidson: A name that brings a smile to anyone who loves American motorcycles. For 100 years, that name has been synonymous with freedom, open roads, raw power and good times, and the Milwaukee motorcycles have spawned legions of

fans world-wide who are fiercely loyal to their V-twin-powered machines and the company that built them. Since 1903, the Harley-Davidson Motor Company has endured wars, recessions, depressions, strikes, buyouts and buybacks, foreign competition, and ever-changing markets. It has survived all that, and thrived. Harley is now stronger than it's ever been, and shows no sign of slowing down. In the fourth edition of this classic history, author David K. Wright has revised and expanded the book to include all 100 years of the company's history. He covers the motorcycles, the

men who built them, the owners, the dealers, the racers, and the entire Harley scene, from celebrity owners and police bikes to one-percenters, from restorers to custom bike builders. Wright's extensive research, candid style, and deep appreciation for Harley-Davidson's history combine to make this an important part of every Harley rider's library. This is the complete story of Harley-Davidson, the American motorcycle of the 20th Century -- and now, of the 21st Century as well. Every H-D fan, from first-time rider to grizzled veteran, will want this fascinating, all-too-true story -- now

offered proudly without Harley-Davidson approval or endorsement. Book jacket. Get lost in the fun of an impromptu Las Vegas wedding in this classic romance from New York Times bestselling author Sharon Sala. Wedding night? What wedding night? Proper Southerner Harley June Beaumont came to Vegas to be her best friend's maid of honor, so how is she waking up in bed with the best-looking man she's ever seen—who claims to be her husband. She doesn't even remember meeting firefighter Sam Clay, just dancing and drinking and having a good

time—a good time that stopped well short of a trip to the tattoo parlor, much less the altar. Though her new “Junie loves Same” tattoo says otherwise! With nothing to do but brazen things out in front of her very proper family, Harley embarks on married life with no expectation that it could possibly last. But Sam turns out to be the whole package, and soon Harley thinks that sometimes it's a good thing that what happens in Vegas doesn't necessarily stay there. Originally published in 2002 The motorcycle club life style has been wild and woolly from the beginning. I've written about some

wild and sometimes violent times. I have also tried to put a light on some of the corruption and underhanded dealings by some authorities. One such law enforcement officer who had a pocket full of drugs to plant on the victim but the officer instead was shot. Is the motorcycle world targeted? Yes, in some places more than others. We are profiled, detained, and often separated from our cash, there is always a ticket. We aren't allowed to assemble in public. Some bars are closed down if they serve bikers. "It Will Get Tough" exposes some of the police abuse and our ability to have fun anyway. We

must stand and fight for our constitutionally guaranteed rights, and we are. When the heavens open on the small river town of Occoquan, Virginia, the streets flood and a candle shop is swept away. A Methodist pastor named Harley Camden witnesses the destructive deluge and then discovers, in the debris, a dead man with a crude carving of Satan's claws in his back. Harley is drawn into the mystery of what caused the flood and who killed the man, while diving into questions of good and evil, body and spirit, humanity and the environment—especially questions about the change in

climate that now threatens life around the globe. He discovers that there is a spiritual dimension to every social issue, whether it be the violence of Central American gangs or the racism that leads a black businessman to make a fateful choice. When the windows of the heavens open, surprising truths are revealed about how people can coexist in an interfaith, multicultural community, and how humans can establish a sustainable relationship with the natural world around them. The first time C. J. Powell rescues her, Natasha Bennington is

running a marathon honoring the memory of their friend. Now her work fighting for humanitarian rights is once again putting her at risk. And the rugged San Francisco firefighter has crowned himself her designated hero! Catching the stunning brunette when she collapses at the finish line isn't the way C.J. imagined meeting Tasha again. A year ago, she'd been hopelessly in love with his best friend. Now the fiercely dedicated pro bono attorney needs his protection—especially after a deadly threat forces Tasha to flee to C.J.'s hometown. There are worse things than hiding out in the breathtaking

wilds of Alaska with the woman he adores. Now C.J. has a more urgent mission—keeping Tasha safe until the danger's past and she's ready to move on...with him. The definitive, maximum-impact guide to using the transformative power of social media as the ultimate competitive advantage About the Book In The Hyper-Social Company, Ed Moran of Deloitte and Francois Goissieaux of BeelineLabs identify how (and which) social media are fundamentally changing core business processes and the way businesses and customers interact. These changes are

being driven by what the authors call the “Hyper-Social Shift.” Through interviews with more than 500 companies and studies of social media, Moran and Goissieaux have gained radical new insights into the advantages many businesses have derived from new technologies and practices. From these findings, the authors have developed self-analysis tools—including the Hyper-Sociality Index (HSI) profiled in this book—that leaders and managers can use to assess their enterprise’s Hyper-Sociality; pinpoint which parts of their organization are ready to make the leap; and

benchmark their progress against competitors, or against their industry as a whole. Award-winning reporter Emily Dugan's *Finding Home* follows the tumultuous lives of a group of immigrants, all facing intense challenges in their quest to live in the UK. Syrian refugee Emad set up the Free Syrian League and worked illegally in the UK to pay for his mother to be smuggled across the Mediterranean on a perilous trip from Turkey. Even if she survives the journey, Emad knows it will be an uphill struggle to get her into Britain. Australian therapist Harley risks deportation despite serving the NHS for

ten years and being told by the Home Office she could stay. Teaching assistant Klaudia is one of thousands of Polish people now living in Boston, Lincolnshire - a microcosm of poorly managed migration. Aderonke, a leading Manchester LGBT activist, lives in a tiny B&B room in Salford with her girlfriend, Happiness, and faces deportation and persecution. Dugan's timely and acutely observed book reveals the intense personal dramas of ordinary men and women as they struggle to find somewhere to call home. It shows that migration is not about numbers, votes or opinions: it is about people.

Lola and Harley are the best friends that two puppies can be. They love to play together, and their afternoon of fun is only ended when Harley's mom says it's time to go home. This sweet book of opposites is a great way to help children learn opposite words while enjoying the story. Donated to the Library by the Dundalk Fire Fighters Assoc. in memory of Elmer Langdon and all others who died in the line of duty. *Harley-Davidson Sportster: Sixty Years* tells the complete story of the Sportster. First produced in 1957, it has gone on to become one of the top selling motorcycles of the twenty-first

century. One Spark is All it Takes Everyone in Washington, DC, knows that when the heat is on, you call Valerie Wainright. This brilliant, brassy PR maven can spin any hot scandal, and she's never let a client ruffle her feathers. Yet when she agrees to teach DC's bravest how to handle a media frenzy, she faces an entirely different kind of fire. Keeping things all business and no pleasure is far harder than she expected. After steamy photos ignite the Internet, firefighter Jason Moore instantly goes from hero to bad boy. While he couldn't care less about an online rep, he cares a lot about

his job and saving lives. If Valerie can help clear his name, he'll do what she says—even if it means forcing himself to keep his hands off her. But beneath Valerie's cool cover, Jason feels a smoldering desire that lights his own. And this is one inferno he'll definitely want to stoke . . . “A journey into a powerful idea . . . the more people you involve as creators and contributors, the greater your innovation capacity.” —Polly LaBarre, New York Times bestselling coauthor of *Mavericks at Work* Organizations need to offer customers breakthrough products, services, and solutions to

effectively compete in today's innovation-hungry economy. The challenge is customers often don't know precisely what they want. As Henry Ford is reputed to have said, “If I had asked people what they wanted, they would have said faster horses.” To surprise and awe your customers, Chip Bell advises developing co-creation partnerships with them. Co-creation partnerships are about fulfilling customers' hopes and aspirations, not just their needs and expectations. Co-creation partnerships require (1) curiosity that uncovers insight, (2) grounding that

promotes clear focus, (3) discovery that fosters risk-taking, (4) trust that safeguards partnership purity, and (5) passion that inspires energized generosity. Using examples from organizations like McDonald's, DHL, Marriott, Lockheed Martin, Discover Financial, Ultimate Software, and many more, Bell shows how co-creation partnerships enable you to tap into the treasure trove of ideas, ingenuity, and genius-in-the-raw within every customer.

"Innovation through partnership is the blueprint for business growth in the future. Inside Your Customer's Imagination provides the instruction and

inspiration to make it a success."—Marshall Goldsmith, #1 New York Times-bestselling author "Chip Bell's unique perspective, lively illustrations, and practical advice result in one terrific resource for anyone eager to tap a customer's ingenuity for creating breakthrough results." —Jeanne Bliss, founder and CEO, CustomerBliss; and cofounder, Customer Experience Professionals Association (CXPA) Her heart is wide open, but he's nailed his shut. Preschool teacher Harley Cole has always viewed life through rose-colored glasses.

With a career she loves, friends she enjoys, and a home that is her haven, there's only one thing missing—finding her soul mate. As the holidays approach, Harley is inspired to help her former high school crush rediscover his holiday joy. It's just a good deed...until the feelings she thought were gone come rushing back. Fire Chief Becker Lange returns home to River's Edge with a heavy heart. His divorce has emotionally ravaged him, leaving him more confused than ever about what women want. So to protect himself from another failure, he closes his heart. And then Harley Cole makes him a

flirty dare that she can help him overcome the holiday blues. Beck's not sure he wants to, but Harley's a hard woman to tell no. Can the magic of Christmas and a sweet stray kitten bring these two lonely souls together? Lola was a buckshot-riddled stray, lost on a Memphis highway. Cody was rejected from seven different homes. Ace had been sprayed with mace and left for dead on a train track. They were deemed unadoptable. Untrainable. Unsalvageable. These would become the same dogs America relied on when its worst disasters hit. In 1995, Wilma

Melville volunteered as a canine search-and-rescue (SAR) handler with her Black Labrador Murphy in the aftermath of the Oklahoma City bombing. At the time, there were only fifteen FEMA certified SAR dogs in the United States. Believing in the value of these remarkable animals to help save lives, Wilma knew many more were needed in the event of future major disasters. She made a vow to help 168 dogs receive search-and-rescue training in her lifetime—one for every Oklahoma City victim. Wilma singlehandedly established the National Disaster Search Dog

Foundation (SDF) to meet this challenge. The first canine candidates—Ana, Dusty, and Harley—were a trio of golden retrievers with behavioral problems so severe the dogs were considered irredeemable and unadoptable. But with patience, discipline, and love applied during training, they proved to have the ability, agility, and stamina to graduate as SARs. Paired with a trio of firefighters, they were among the first responders searching the ruins of the World Trade Center following 9/11—setting the standard for the more than 168 of the SDF's search-and-rescue dogs

that followed. Beautiful and heart-wrenching, *Hero Dogs* is the story of one woman's dream brought to fruition by dedicated volunteers and firefighters—and the bonds they forged with the incredible rescued-turned-rescuer dogs to create one of America's most vital resources in disaster response. When the Sutherland family reunion descends on Malvern Gardens Inn, it catches eighteen-year-old Jennalee Preece in rebellion. Daughter of the inn's owners, Jennalee hasn't forgiven her father for uprooting the family from a comfortable life in San Francisco and dropping them in

the middle of California's gold country, far from anything hip, or fun, or exciting. Acting out with local boys and refusing to play the piano she loves, Jennalee finds the Sutherland hordes a welcome diversion. Amid the countless well-off families come the Laidlaws -- on motorcycles. This black sheep branch of the family seems as rebellious as Jennalee does, and she's drawn to their punk violinist son, Harley. Over the four-day Fourth of July weekend, the Sutherlands drink, party, squabble, and even manage to burn down part of the inn. Can Harley pull Jennalee from her rebellion and help her find

emotional stability with the music they share? *Motorcycle Porn: Portraits and Stories* is a book of images by photographer and motorcycle aficionado Frank J. Bott. These amazing images is an extensive project of Franks J. Bott to document unique bikes. When he photographs his gigantic softbox wraps light around the bike accentuating its every shape and texture. He captures the details of each bike in a way the motorcycle lover will appreciate. His mastery of photography and light shows off each bike's machinery--the reader will declare they're looking at

rare mechanical jewels. Each set of motorcycle portraits speaks a story about its history, customizing or restoring, engineering, its beauty, or rider experience. If you are a rider, owner, dreamer, mechanic, a designer, a collector, and an enthusiast of motorcycles, this book is for you. -- Frank J. Bott

Kate Elliot was warned not to stay alone in the Dark Lake North Museum after sunset. But she had a deadline to meet, and she knew ghosts weren't real. So who — or what — is she encountering when the lights go out? Kate's Encounter is the exciting, chilling opening chapter in The Dark

Lake Chronicles, a modern ghost story / urban fantasy / paranormal romance connecting to the steamy, highly praised Talbot Trilogy. The vehicles and other firefighting equipment of the Milwaukee Fire Department, like the department itself, are unique among the fire service. It built more of its own apparatus than any other American city and few can match the scope and character of apparatus used to serve and protect life and property in Milwaukee. Through detailed research, firsthand narratives, and captivating photos, the author walks the reader through

the fascinating history of the incredible machines that served Cream City from the mid-nineteenth century to modern times. This volume traces the ever-changing face of Milwaukee's fire-fighting and life-saving equipment in parallel with the city's own history and growth. The fire department workshop's reputation for ingenuity is shown through its adaptations to disastrous fires that brought about changes in laws, economic growth and decline, the establishment of Milwaukee's ethnic neighborhoods, the difficult transition from horses to motorization, the wartime and post-

war experience, the corporate world of apparatus manufacturers, and Milwaukee's fireboat fleet. "Harley in the Barn" is a narrative and photo-driven book detailing over 35 incredible "barn-finds" of rare and vintage motorcycles from around the world"-- Four full firefighter romances, together for one fireproof price! From international bestseller Rachael Herron (and real-life fire dispatcher), comes a series too delightful to put down: Blaze, Burn, Flame and Heat. The Firefighters of Darling Bay don't even know they're searching for flames of their own. By falling in love with four-alarm

women, will they all rescue their own hearts? This heartwarming, hilarious, and red-hot contemporary romance will leave you wishing for a marina view (and a hot fireman or three) of your very own. This is not a

drill! Playing with fire has never been this fun! Buy Now! Why do our bodies rebel against themselves? Why are autoimmune disorders on the rise? What role do everyday environmental

toxins play in triggering onset of these diseases? The author answers these questions with personal stories and sound scientific research and offers ways to combat the problem.
