Struggling through the merciless Rocky Mountain wilderness only to have his wife and children kidnapped by a marauding band of killers, wary settler Nathaniel King realizes that he must test his survival skills if he is to reclaim his loved ones. Original. Over 2,000 pages of werewolf adventures in one spot! I'm Wolf Young --- Wolfie to my friends. But this box set isn't about me. It's about three strong women I've had the luxury to know. They kick ass and take names. Bake cupcakes and build packs. Their world is full of swords and secret government bases. Malicious fathers and found families. And, yeah, I hang out on the periphery. It's a pretty good place to be. I asked my personal scribe to jot down their stories, and the result is an impressive assemblage. Ten novels. Two novellas. Enough short stories to keep an entire wolf pack busy around

the campfire. A few of those tales are about me, but that's not the point. The point is the bold, beautiful women who fight, sleuth, and fall in love on these pages. Why not grab yourself a copy and become part of our pack? Contains: The (More Than Complete) Bloodling Serial (Bloodling Wolf, Paradigm Shift, In Deep Shift, Two Scents' Worth, Feint of Heart, and Hair Apparent), Shiftless, Pool Party, Scapegoat, Pack Princess, Character List, Alpha Ascendant, Bloodling Song, Tough as Nails, Half Wolf, Dark Wolf Adrift, Lone Wolf Dawn, Wolf Landing, Yule Moon (Polar Bear Challenge, Out of the Closet, Hunting Christmas, Joining Up, and Potatoes and Gravy), First Blood, Huntress Born, Huntress Bound, Sebastien's Favorite Cookies, Rogue Huntress, Macaroni Dreams, In the Kitchen with Werewolves, and Huntress Unleashed. Praised by the likes of Joe Abercrombie and Brent Weeks, Stephen Deas has made dragons his own. The Silver King, half-god, legend and myth, is returning. Once he fought his brother, the Black Moon, and his dragons, and was defeated. But the Black Moon was also weakened, and a millennia has passed. Humanity has grown used to a world without gods, a world where they were masters of all - including the terrifying dragons. But the dragons have awakened, the hole in reality is expanding, and the shackles that kept the half-gods controlled have been broken. The Black Moon lives on in the body of Berren Crowntaker, and has taken control. With an army behind him, the dragons above and the Dragon Queen at his side, he goes to war with his brother. The worlds are turning, and only one thing is sure - there will be an ending. THE SILVER KING is the triumphant conclusion to one of the most brutal and wide-ranging fantasy series of recent years. Orfeus the hunter is searching for redemption in the wake of destruction... Orfeus has always loved grand

gestures. And what could be grander than risking her life to gain entry to the fabled Cloud Forest to find one of humanity's greatest losses and make a gift of it to her beloved? But the cost proves higher than she could have ever imagined and now she is on the run, navigating a whole new world of danger with few allies and even fewer friends. Arcon, the Cloud Forest's mechanized guardian, is determined to track her down, even if it means destroying everything in their way. Even if it means convincing Jean, a traumatized young trans man escaping a cult, to host them in order to complete their mission. Can Orfeus figure out a way out of the mess that she's created and work with the Order of the Vengeful Wild and their allies to fix what she's broken before their world is pushed once more to the brink? Craig Tigerman's first collection, *Indigo Avenue* (Writers Club Press, 2000), won acclaim from readers coast to coast and overseas. "His mastery of the English language shines in his lyrical passages, rhythms and rhyme schemes ... intensely personal yet universal in appeal," wrote one reviewer. Now comes *TigerTale*, an even larger collection, spanning 37 years, humbly offered for your reading enjoyment. "Paused along this wooded trail, Stream of dreams low running by, Fast-passed years no tears avail: Life dances on, love shall not die. ... I take unto my soul this gifted cup Of strength for weary hearts to cherish And swallowing, my spirit is lifted up To journey on, love shall not perish." ("This Gifted Cup" by Craig Tigerman) Sean Mulcahy answered Uncle Sam's call. In the autumn of 1917, he left his home, his friends, and the girl he loved. On the killing fields of the Western Front, he vanished without a trace. Thirty years later his best friend Vince Sicario is a broken man. Split from his wife, run off the NYPD, his world swirls in the bottom of a bottle. Until Sean comes clawing at his door. Bleeding. Delirious. And looking not a single day older. Vince turns to the only person he trusts, his wife Maggie—the woman Sean left behind three decades earlier. Together they hit the streets of Hell's Kitchen, seeking answers to Sean's disappearance and mysterious return. But others are on the same trail, and something terrible is lurking in the dark alleys and dirty corners of the West Side. Wise guys are disappearing. Mutilated corpses are turning up. The cops

are baffled and gangsters are running scared. Rumors abound of strange gatherings in the shadows, of ancient horrors reborn, of blood feasts and pagan rites rekindled. Some say the savior of the damned has come. Sean may be in terrible danger. Or the greatest danger of all—the Lucifer Messiah. *Conflicts in Feminism* proposes new strategies for negotiating and practicing conflict in feminism. Noted scholars and writers examine the most critically divisive issues within feminism today with sensitivity to all sides of the debates. By analyzing how the debates have worked for and against feminism, and by promoting dialogue across a variety of contexts, these provocative essays explore the roots of divisiveness while articulating new models for a productive discourse of difference. *The Culture of Animals in Antiquity* provides students and researchers with well-chosen and clearly presented ancient sources in translation, some well-known, others undoubtedly unfamiliar, but all central to a key area of study in ancient history: the part played by animals in the cultures of the ancient Mediterranean. It brings new ideas to bear on the wealth of evidence - literary, historical and archaeological - which we possess for the experiences and roles of animals in the ancient world. Offering a broad picture of ancient cultures in the Mediterranean as part of a wider ecosystem, the volume is on an ambitious scale. It covers a broad span of time, from the sacred animals of dynastic Egypt to the imagery of the lamb in early Christianity, and of region, from the fallow deer introduced and bred in Roman Britain to the Asiatic lioness and her cubs brought as a gift by the Elamites to the Great King of Persia. This sourcebook is essential for anyone wishing to understand the role of animals in the ancient world and support learning for one of the fastest growing disciplines in Classics. Today the names of H. P. Lovecraft, Robert E. Howard, August Derleth, and Clark Ashton Smith, all regular contributors to the pulp magazine *Weird Tales* during the first half of the twentieth century, are recognizable even to casual readers of the bizarre and fantastic. And yet despite being more popular than them all during the golden era of genre pulp fiction, there is another author whose name and work have fallen into obscurity: Seabury Quinn. Quinn's short stories were featured in well more than half of

Weird Tales's original publication run. His most famous character, the supernatural French detective Dr. Jules de Grandin, investigated cases involving monsters, devil worshippers, serial killers, and spirits from beyond the grave, often set in the small town of Harrisonville, New Jersey. In de Grandin there are familiar shades of both Arthur Conan Doyle's Sherlock Holmes and Agatha Christie's Hercule Poirot, and alongside his assistant, Dr. Samuel Trowbridge, de Grandin's knack for solving mysteries-and his outbursts of peculiar French-isms (grand Dieu!)-captivated readers for nearly three decades. The third volume, *The Dark Angel*, includes all of the Jules de Grandin stories from "The Lost Lady" (1931) to "The Hand of Glory" (1933), as well as "The Devil's Bride", the only novel featuring de Grandin, which was originally serialized over six issues of *Weird Tales*. Ireland, 1651. A country ravaged by Oliver Cromwell's Act of Settlement. Under it, Fergal O'Breslin, a young clan chief, and his fellow Irish citizens are forced to leave their ancestral lands and travel to the cramped, rocky province of Connacht. There, honest men become robbers, proud men must beg, and despair and privation become a way of life. Set against a panoramic backdrop of religious and political upheaval, Fergal and his clansmen struggle to wrest an existence out of a barren and inhospitable land under the yoke of English oppression. He was just trying to swindle his way in, but with an open mouth, he directly became the Tang Clan's Eldest Young Miss's fiancé and was even a son-in-law. Li Mingyi expressed that this son-in-law was really ... Don't be too good! In front of him, there was his impeccable fiancée, his fiery hot little chili who kept bickering with him, and even his sister-in-law who shared a room with him ... This fresh analysis of the England&-Australia "e;Bodyline Controversy"e; of 1932-33 uncovers hypocrisy on both sides of the furore, drawing on exclusive interviews with English "e;villain of the piece"e; (and Australian emigre) Harold Larwood. At the time, Australia was a young, isolated country where sport was a religion, winning essential, and the media prone to distortion. In England, the MCC was pressurised by a British government fearing trade repercussions, leaving Harold Larwood and Douglas Jardine to be hung out to dry on a clothes-

line of political expediency. *The Bodyline Hypocrisy* analyzes the influence of Australian culture on events, and on exaggerations and distortions previously accepted as fact. It reveals that the MCC granted Honorary Membership to Larwood in 1949, influenced by its Australian president. And now even Ian Chappell has stated that Jardine's leg-theory tactic was simply playing Test cricket with whatever weapons were available. Times change and the truth emerges. The case of the Central Park Five is being revisited with a new acclaimed Netflix limited series on the subject, *When They See Us*, directed by Ava DuVernay. This is the only book that is going to tell you all you need to know about one of the most infamous criminal cases in American history. A trial that, thirty years on, still bears a striking, and unsettling, resemblance to our current political climate in the era of President Donald Trump. In April 1989, a white woman who came to be known as the 'Central Park jogger' was brutally raped and severely beaten, her body left crumpled in a ravine. Amid the staggering torrent of media coverage and public outcry that ensued, exposing the deep-seated race and class divisions in New York City at the time, five teenagers were quickly apprehended - four black and one Hispanic. All five confessed, were tried and convicted as adults despite no evidence linking them to the victim. Over a decade later, when DNA tests connected serial rapist Matias Reyes to the crime, the government, law enforcement, social institutions and media of New York were exposed as having undermined the individuals they were designed to protect. In *The Central Park Five*, Sarah Burns, who has worked closely with the young men to uncover and document the truth, recounts the ins and outs of this historic case for the first time since their convictions were overturned, telling, at last, the full story of one of America's most legendary miscarriages of justice. *Savage Girls and Wild Boys* is a fascinating history of extraordinary children---brought up by animals, raised in the wilderness, or locked up for long years in solitary confinement. Wild or feral children have fascinated us through the centuries, and continue to do so today. In a haunting and hugely readable study, Michael Newton deftly investigates a number of infamous cases. He looks at Peter the Wild Boy, who gripped the

attention of Swift and Defoe, and at Victor of Aveyron, who roamed wild in the forests of revolutionary France. He tells the story of a savage girl lost on the streets of Paris, of two children brought up by wolves in the jungles of India, and of a Los Angeles girl who emerged from thirteen years locked in a room to international celebrity. He describes, too, a boy brought up among monkeys in Uganda; and in Moscow, the child found living with a pack of wild dogs. *Savage Girls and Wild Boys* examines the lives of these children and of the adults who "rescued" them, looked after them, educated, or abused them. How can we explain the mixture of disgust and envy that such children can provoke? And what can they teach us about our notions of education, civilization, and man's true nature? This book combines the academic and practical aspects of teaching by exploring the ways in which *Buffy the Vampire Slayer* is taught, internationally, through both interdisciplinary and discipline-based approaches. Essays describe how *Buffy* can be used to explain—and encourage further discussion of—television's narrative complexity, archetypal characters, morality, feminism, identity, ethics, non-verbal communication, film production, media and culture, censorship, and Shakespeare, among other topics. This book takes us on a journey through three thousand years of history, showing us men and women searching for God and finding the answers to their quest in an amazingly diverse variety of life experiences. The author introduces us to pagan Greeks and Romans, ancient Hebrew authors, Christians (Catholic, Eastern Orthodox, and Protestant) from all periods of history, the physicists Albert Einstein and Stephen Hawking, the mathematician Kurt Godel, existentialist philosophers, process theologians, New Thought teachers, and the great spiritual masters of the modern twelve step program. The bestselling and Pulitzer Prize-winning author of *Ragtime* and *Billy Bathgate* has compiled his first collection of essays, a richly textured and detailed combination of literary criticism, political invective, and historical meditation. \*\*\*50 MILLION TERRY BROOKS COPIES SOLD AROUND THE WORLD\*\*\* 'Terry's place is at the head of the fantasy world' Philip Pullman An outcast king fights for his throne! A year has passed since Ben Holiday bought the Magic Kingdom and

claimed the throne despite the machinations of the wizard Meeks. Three loyal friends had come to his aid: the incompetent Court Wizard, Questor Thews; the court scribe, Abernathy, a talking dog; and the lovely willow, who was sometimes a tree. Now Ben dreamt of a former partner, Miles Bennett, in grave trouble. But when he returned to Earth, Miles was in the best of spirits. His home-coming to Landover was shattered by the disappearance of Willow and the partial destruction of Questor's books of magic. Not only that, no one seemed to recognise Ben himself. And Meeks had taken on Ben's appearance, and the role of king. Ben Holiday and his kingdom were in deep trouble. Praise for Terry Brooks: 'A master of the craft . . . required reading' Brent Weeks 'I can't even begin to count how many of Terry Brooks's books I've read (and re-read) over the years' Patrick Rothfuss, author of *The Name of the Wind* 'I would not be writing epic fantasy today if not for Shannara' Peter V. Brett, author of *The Painted Man* 'If you haven't read Terry Brooks, you haven't read fantasy' Christopher Paolini, author of *Eragon* *The Call of the Wild*—Selected by the Modern Library as one of the 100 best novels of all time 'To this day Jack London is the most widely read American writer in the world,' E. L. Doctorow wrote in *The New York Times Book Review*. Generally considered to be London's greatest achievement, *The Call of the Wild* brought him international acclaim when it was published in 1903. His story of the dog Buck, who learns to survive in the bleak Yukon wilderness, is viewed by many as his symbolic autobiography. 'No other popular writer of his time did any better writing than you will find in *The Call of the Wild*,' said H. L. Mencken. 'Here, indeed, are all the elements of sound fiction.' *White Fang* (1906), which London conceived as a 'complete antithesis and companion piece to *The Call of the Wild*,' is the tale of an abused wolf-dog tamed by exposure to civilization. Also included in this volume is 'To Build a Fire,' a marvelously desolate short story set in the Klondike, but containing all the elements of a classic Greek tragedy. 'The quintessential Jack London is in the on-rushing compulsive-ness of his northern stories,' noted James Dickey. 'Few men have more convincingly examined the connection between the creative powers of the individual writer and the unconscious drive to breed and to

survive, found in the natural world. . . . London is in and committed to his creations to a degree very nearly unparalleled in the composition of fiction.' Benedict examines press treatment of four notorious sex crimes from the past decade and shows how victims are labelled either as virgins or vamps, a practice she condemns as misleading and harmful. "Hoyt has a fresh, invigorating style that grabs the reader immediately."—*The New York Times* At the 1852 Christmas party hosted by Tsar Nicholas I, the plucky half-Chinese, half-Russian poet Sonja Sankova decks Peter "Colonel Cut" Koslov, who is infamous for his necklace of ears taken from serfs and Jews. In London that same night, American Jack Sandt, the Matthew Brady of Asia, conspires with Karl Marx to con the tsar into letting Sandt take daguerreotype images inside Russia. So begins this immaculately researched, wildest of romantic wild rides, an odyssey of two lovers fleeing for their lives through the vast reaches of the Russian empire. The period detail is splendid: a supper with Ivan Turgenev; a visit with the craftsmen who designed and cut gems for the Romanov tsars; a ball in a frontier town in the Urals; a glimpse of life inside the yurts of nomadic herdsmen. With Koslov and his special unit, the Wolfpack, in hot pursuit, Sonja and Jack flee Saint Petersburg, cross European Russia, and go over the Urals, there risking their lives on a turbulent mountain river. Sonja and Jack take turns telling their story, as they fall in love and marry in a Siberian chapel. In a narrow escape, Jack shoots Koslov in the ankle. A sadistic Kyrghyz nomad grabs Sonja and spirits her away. Jack and a Cossack pursue the nomad and his men across the Asian steppe, but Koslov gets to him first. Koslov takes Sonja to a fabled mountain near Lake Baikal, where he is to retrieve rubies destined for a new Romanov throne. He waits, vowing revenge for his stiff ankle. Jack rescues his wife, and with their lives and a fortune of rubies at stake—and real wolves howling in a blizzard—Sonja and Jack face down Colonel Cut and the Wolfpack. "Fantasy fans will take a dive dive in this lavishly detailed story." —Kirkus Despite the success of their first adventure, Thurmond

and his companions, Sarah, Roscoe, and Torgul, are out of money and about to be expelled from their new home at Grimsgard. The only solution—a raid on Castle Sathas, the home of an infamous witch-cult. To get there, they must undertake a long and perilous overland journey through a wilderness rife with ruthless bandits, voracious wolf packs, and greedy robber-knights. Along the way, their every step is shadowed by an unseen nemesis bent on their destruction. Beset by treacherous landscapes and deadly enemies, it seems their quest is doomed to fail. And even if they win through, will they survive the ancient evil waiting in Castle Sathas? Throat-gripping and unpredictable, Castle of the Red Contessa takes the reader on a heroic quest of rousing medieval adventure. The stories of the Trojan war and Helen of Troy, Patroclus and Achilles, the Sirens and the Cyclops are embedded in western culture, yet readers often fail to recognise that they were made famous by two epic poems, The Iliad and The Odyssey, and one blind poet: Homer. Alberto Manguel begins his book with the poems' inception in ancient Greece and demonstrates how these poems have reverberated subsequently through the western canon, from the Rome of Virgil and Horace to Joyce's Dublin and Derek Walcott's Caribbean, via Dante and Racine. In this lyrical and graceful short volume, Manguel delights in the original poems and celebrates their presence throughout history. This book is an autobiography of Ron S King, who lived a very different lifestyle. You will read of 'Gangsters and the 'Low-Life', the dregs of Society... Once a reader picks up this book, there will be difficulty in putting it down. The inside story of life aboard the deadly Nazi U-Boat that sank forty-nine ships. The history of one of World War II's most successful submarines, U-124, is chronicled in Grey Wolf, Grey Sea, from its few defeats to a legion of victories. Kapitanleutnant Jochen Mohr commanded his German submarine and navigated it through the treacherous waters of one of the most destructive, savage wars the world has known. Capture the fantasy, thrills, and far-flung adventure of the first three novels in Terry Brooks's enchanting Magic Kingdom of Landover series—now for the first time in one gripping volume. Chicago lawyer Ben Holiday can't fathom what lies ahead when he purchases

Landover—a magical kingdom of chivalry and sorcery—from Meeks, the mysterious seller who placed the ad. Weary and jaded, Ben clings to the ad's promise: "Escape into your dreams." But Landover is not the enchanted idyll he expected. The kingdom is in ruin. The barons refuse to recognize Ben as King, a dragon is decimating the countryside, and a demon lord has challenged any prospective ruler to a fatal duel. To make matters worse, the Paladin, renowned champion of the Kings of Landover, seems to be merely a legend. Ben's only allies are a bumbling court magician, a talking dog turned court scribe, and the beautiful Willow, who is part girl, part tree. With his friends in tow, Ben sets out to claim the throne. But when Meeks decides he wants Landover back, Ben will face supernatural foes of every stripe to prove himself worthy of the kingship. The question is: Can he survive? Representing Animals explores the complex and often surprising connections between our imagining of animals and our cultural environment. The contributors -- historians, literary critics, anthropologists, artists, art historians, and scholars of cultural studies -- examine the ways we talk, write, photograph, imagine, and otherwise represent animals. The book includes topics such as pet cloning, fox hunting, animatronic characters, and how we displace our fear of aging onto our dogs. Representing Animals demonstrates the deep connections between the way we think about animals and the way we have thought about ourselves and our cultures in different times and places. Its publication marks a formative moment in the emerging field of animal studies. Thrown together, they'll both discover there's more than one way to claim a wolf. Connal's Mate She was just another assignment, but what happens to this cocky Werewolf when she turns out to be so much more? "The gripping story of the wolves the British sent to govern the Irish . . . Miracles abound in this action-packed history." —Kathleen Kennedy Townsend, Former Lieutenant Governor of Maryland "The Irish people have suffered mercilessly at the hands of conquerors over the past thousand or so years . . . The Normans tried with only limited success to conquer the Irish in 1167, a hundred years after their takeover of England . . . Irish resistance to British rule provoked a lengthy war between the clans of the Irish chieftains and the English soldiers . . . They confiscated the lands once more and instituted such harsh and outrageous controls that it ultimately resulted in the great Irish emigration to the United States. Jack Bray tells this thrilling story from an immense wealth of knowledge and such a writer's eye for detail that no one even remotely interested in the period will want to miss it." —from the Foreword by Winston Groom, New York Times bestselling author of Forrest Gump "The Irish are a storytelling people and Jack Bray is one of them. And what a story he has written: the centuries of tragedy ending in the building of a great country across the sea, America. Deeply researched and deeply felt, The Tudor Wolfpack and the Roots of Irish America has a brave and musical heart." —Richard Reeves, national bestselling author of President Kennedy: Profile of Power "Combining the soul of Ireland's ancient storytelling seanchaí with the great talent and skill of an American lawyer-historian, Jack Bray tells a powerful story about the military conquest and colonization of Ireland in the sixteenth and seventeenth centuries." —Edward J. Markey, United States Senator, Massachusetts When he wakes up he remembers nothing, not even his own name. He doesn't know why he's squatting in Central Park or why he carries the human femur that earned him the

With the help of a social worker named Anne and a street performer named Zulu, Bone attempts to discover the truth. But his pursuit of the past is about to take them deep into New York's underground . . . where untold horrors await. Provides biographical sketches and achievements of American social reformers Other Selves: Animals in the Canadian Literary Imagination begins with the premise, first suggested by Margaret Atwood in *The Animals in That Country* (1968), that animals have occupied a peculiarly central position in the Canadian imagination. Unlike the longer-settled countries of Europe or the more densely-populated United States, in Canada animals have always been the loved and feared co-inhabitants of this harsh, beautiful land. From the realistic animal tales of Charles G. D. Roberts and Ernest Thompson Seton, to the urban animals of Marshall Saunders and Dennis Lee, to the lyrical observations of bird enthusiasts John James Audubon, Thomas McIlwraith, and Don McKay, animals have occupied a key place in Canadian literature, focusing central aspects of our environmental consciousness and cultural symbolism. *Other Selves* explores how and what the animals in this country have meant through all genres and periods of Canadian writing, focusing sometimes on individual texts and at other times on broader issues. Tackling more than a century of writing, from 19th-century narrative of women travellers, to the "natural" conversion of Grey Owl, to the award-winning novels of Farley Mowat, Marian Engel, Timothy Findley, Barbara Gowdy, and Yann Martel, these essays engage the reader in this widely-acknowledged but inadequately-explored aspect of Canadian literature.
