Owen Lawry is days away from leaving Gansett Island to attend the trial of his father, who is charged with assaulting his mother almost a year ago. He has spent his entire adult life trying to outrun his violent past, but the upcoming showdown with the father he hasn't seen in more than a decade has him spending far more time in the past than in the present. His biggest challenge is convincing his pregnant fiancée, Laura McCarthy, to sit out the trip. The last thing he wants is to expose the woman he loves to the pain of his past. Laura is determined to stand by Owen's side throughout the trial and into the life they have planned together. The trial and her final divorce papers are the only things standing between them and the wedding they have looked forward to all year. Can she convince Owen to let her in and allow her to help him through this difficult time? And what will become of the man she loves if his father walks free? As Owen and Laura prepare for the emotional battle with his father, his mother, Sarah, finally comes clean about her violent marriage with Charlie Grandchamp, the man who has been her friend and companion for months now. How will Charlie react to hearing Sarah's secrets, and will their relationship move forward now that he finally knows the truth about why she can't bear to let him touch her? Catch up with all your favorite Gansett Island characters from the past ten and a half books and meet several new characters, including some McCarthy cousins on the island for Laura and Owen's wedding, who will be featured in future books. Christy Constantakopoulou examines the history of the Aegean islands and changing concepts of insularity, with particular emphasis on the fifth century BC. Islands are a prominent feature of the Aegean landscape, and this inevitably created a variety of different (and sometimes contradictory) perceptions of insularity in classical Greek thought. Geographic analysis of insularity emphasizes the interplay between island isolation and island interaction, but the predominance of islands in the Aegean sea made island isolation almost impossible. Rather, island connectivity was an important feature of the history of the Aegean and was expressed on many levels. Constantakopoulou investigates island interaction in two prominent areas, religion and imperial politics, examining both the religious networks located on islands in the ancient Greek world and the impact of imperial politics on the Aegean islands during the fifth century. New adventures lie ahead as Anne Shirley packs her bags, waves good-bye to childhood, and heads for Redmond College. With old friend Prissy Grant waiting in the bustling city of Kingsport and frivolous new pal Philippa Gordon at her side, Anne tucks her memories of rural Avonlea away and discovers life on her own terms, filled with surprises...including a marriage proposal from the worst fellow imaginable, the sale of her very first story, and a tragedy that teaches

her a painful lesson. But tears turn to laughter when Anne and her friends move into an old cottage and an ornery black cat steals her heart. Little does Anne know that handsome Gilbert Blythe wants to win her heart, too. Suddenly Anne must decide if she's ready for love... Ein Thriller, der mit unseren schlimmsten Ängsten spielt, bis zum letzten Atemzug: Stell dir vor, sie kidnappen dein Kind, um es zurückzubekommen, musst auch du ein Kind entführen ... Was als ganz normaler Tag begann, wird zum Albtraum für die alleinerziehende Rachel, als ihre 13-jährige Tochter auf dem Weg zur Schule verschwindet. The reader's decisions control the course of an adventure on a remote island where nine golden skulls are hidden. We set to work to excavate some of the statues which stood on the slope of the Raraku mountain. The natives were entirely indifferent whether they worked or not, but by paying high wages and giving any quantity of mutton, we were able at this time to get a certain amount of precarious labour for digging and camp work. The whole lot, including my maid-servant, went in for every week-end to the village, and it was always a matter of anxiety to know whether they would ever return. -from Chapter XII  
Western anthropology's first in-depth look at an isolated culture is also a daring adventure story of around-the-world travel. In February 1913, archaeologist Katherine Routledge set sail on a custom-built yacht with a small crew and the support of British Association for the Advancement of Science, the British Museum, and the Royal Geographical Society-for Easter Island, where she embarked up the first effort to catalogue the island's mysterious statues, interview the natives, and document their culture, folklore, and traditions. Her scholarship is impeccable-this 1919 work is still considered foundational-but her lively writing and her practical perspective make this a delightful read that thrill armchair travelers and amateur ethnographers alike. British archaeologist KATHERINE ROUTLEDGE (1866-1935) studied at Oxford University. She also wrote With Prehistoric People (1910), about her experiences in Africa after the Boer War. Greer will eigentlich nicht dazugehören. Als Außenseiterin folgt sie zwar den unausgesprochenen Regeln des altehrwürdigen Internats St. Aiden - kein Handy, kein Internet, kein Plastik. Doch sie weiß: Zu den "Medievals", der herrschenden Clique um den reichen Henry de Warlencourt, wird sie nie gehören. Als ausgerechnet sie eine der drei begehrten Einladungen erhält, ein Jagdwochenende auf Henrys Anwesen zu verbringen, fühlt sich Greer wider Willen geschmeichelt und sagt zu. Vor Ort wird allerdings schnell klar, dass dort weit mehr gejagt wird als nur Hirsche und Fasane. Mit zwei weiteren Jugendlichen kämpft Greer im Schatten des Anwesens schon bald um ihr Überleben ... und die Jagd ist erst der Anfang. This edition of **MEMOIR ON THE ISLAND OF SOCOTRA** is retyped for clarity and includes modern photography to add insight. Wellsted arrived at the island on board the British survey ship the *Palinurus*, which was surveying the southern coast of Arabia. As part of the survey, Wellsted disembarked, with Charles Cruttenden, and travelled through much of the island. Wellsted's insights are noteworthy and include not only Socotra's unique flora but also the customs of the population, as he understood and saw them. Socotra is one of the least-known, most spectacular of the world's islands and this book presents it before the modern age. This is a remarkable book, written in an easy style about an island that, even today, is isolated and little visited. Born in the mid-1850s on Vancouver Island to an Indigenous Hawaiian father and an Indigenous British Columbian mother, Maria Mahoi moved as a young woman to Salt Spring Island in British Columbia's Strait of Georgia, and in mid-life to her very own nearby Russell Island. A true pioneer, Maria lived until 1936 and bore thirteen children, but also kept her father's surname and fiercely protected her interests, including a legal action to acquire Russell Island in her own name. Maria Mahoi's many descendants encouraged and facilitated the telling of her story in its original and now revised edition. Since its original publication in 2004, **MARIA MAHOI OF THE ISLANDS** has become a classic in its field, and an important document on the history of Indigenous Hawaiians known as Kanakas, who had an early presence across the Pacific Northwest and are now part of the broader Hawaiian diaspora across North America. Volcanic eruptions have killed thousands of people and damaged homes, villages, infrastructure, subsistence gardens, and hunting and fishing grounds in Papua New Guinea and the Solomon Islands. The central business district of a town was destroyed by a volcanic eruption in the case of Rabaul in 1994. Volcanic disasters litter not only the recent written history of both countries—particularly Papua New Guinea—but are recorded in traditional stories as well. Furthermore, evidence for disastrous volcanic eruptions many times greater than any witnessed in historical times is to be found in the geological record. Volcanic risk is greater today than at any time previously because of larger, mainly sedentary populations on or near volcanoes in both countries. An attempt is made in this book to review what is known about past volcanic eruptions and disasters with a view to determining how best volcanic risk can be reduced today in this tectonically complex and volcanically threatening region. Unearth the secrets of the mysterious giant stone statues on this tiny remote Pacific island. Easter Island, in the middle of the Pacific Ocean thousands of miles from anywhere, has intrigued visitors since Europeans first arrived in the 1700s. How did people first come to live there? How did they build the enormous statues and why? How were they placed around the island without carts or even wheels? Scientists have learned many of the

answers, although some things still remain a mystery. Megan Stine reveals it all in a gripping narrative. This book, part of the New York Times best-selling series, is enhanced by eighty illustrations and a detachable fold-out map complete with four photographs on the back. Always fascinated by islands, Oliver Sacks is drawn to the Pacific by reports of the tiny atoll of Pingelap, with its isolated community of islanders born totally colour-blind; and to Guam, where he investigates a puzzling paralysis endemic there for a century. Along the way, he re-encounters the beautiful, primitive island cycad trees - and these become the starting point for a meditation on time and evolution, disease and adaptation, and islands both real and metaphorical. 'Sacks is rightly renowned for his empathy . . . anyone with a taste for the exotic will find this beautifully written book highly engaging' Anthony Storr, Sunday Times 'This is a wonderful book, made better by Sacks' exceptionally gentle descriptions of patients. He also captures the unimaginable sadness of the Pacific' Spectator 'Dr Sacks is an elegant and beguiling writer, and when he describes a condition such as achromatopsia (total colour-blindness), he is not content merely to describe it from the outside, but he tries to imagine what the world is like to a person with the condition' Sunday Telegraph 'There is no one at the present time who writes like Oliver Sacks . . . He is a superb clinician who can take a seemingly arid and obscure medical condition, and convert it into a moving, personal odyssey, a testament of tenacity, courage and will' Anthony Clare, Literary Review
