- INET - Indian Navy Entrance Test (For Officer Entry) Exam Prep Kit comes with well-structured and 100% detailed solutions for all the questions.
- Clear exam with good grades using thoroughly Researched Content by experts. Why Flight Test? Since the Wright Brothers first flew at Kitty Hawk, aerodynamicists, engineers, and mathematicians have conquered the equations of flight. So, we should be able to know everything from wind tunnels, simulation, and computation, right? No. The dynamics of flight require in air test. It is impossible to replicate all the flight conditions on the ground. Or there may be specific flight conditions on the ground. Or there may be specific flight regimes that are poorly defined or too complex to model, such as the flow field around an aircraft carrier. But if we must test in flight, how can we do that safely, efficiently, and effectively? This book describes the basic principles and concepts of flight test. Beginning with the questions and goals of flight test, and showing the parallel between flight test engineering and the Scientific Method, FLIGHT TEST: THE DISCIPLINE covers all the steps of test planning, execution, and reporting. Whether you are a professional flight test engineer or a novice, an aviation buff, or aircrew, you will enjoy the discussion in this book and understand how flight test is a crucial part of man's development of flight. The authors of this book represent vast experience within US Naval Aviation flight test. They bring their array of knowledge and skill to any test team, showing the fundamentals of flight test and most importantly, the "Why?" of what we do in flight test. This

book was written to complement the FLIGHT TEST: THE DISCIPLINE training course presented by AVIAN at www.avian.com and Peter Tyson at www.phtyson.com In India, two critical aspects of public policy — social justice and higher education — have witnessed unprecedented expansion in recent years. While several programmes have been designed by the State to equalise access to higher education and implement formal inclusion, discrimination based on caste, tribe, gender, and rural location continues to exist. Focusing on the concrete experiences of these programmes, this book explores the difficulties and dilemmas that follow formal inclusion, and seeks to redress the disproportionate emphasis on principles rather than practice in the quest for equal access to higher education in India. Offering new perspectives on the debates on social mobility and merit, this volume examines a broad spectrum of educational courses, ranging from engineering, medicine and sciences to social work, humanities and the social sciences that cover all levels of higher education from undergraduate degrees to post-doctoral research. It points to various sources of social exclusion by studying a cross-section of national, elite, subaltern, and sub-regional institutions across the states of Rajasthan, Gujarat, Jharkhand, Uttar Pradesh, Punjab, Kerala, and Tamil Nadu. Closely involved with the implementation and evaluation of affirmative action programmes, the contributors to the volume highlight the paradoxical ‘sectionalisation’ of reserved candidates, the daunting challenge of combating discrimination. Understanding the need to look beyond formal inclusion to enable substantive change, this important volume will be essential reading for scholars and teachers of sociology, education, social work, economics, public administration, and political science, besides being of great interest to policymakers and organisations concerned with education and discrimination.

Competition Science Vision (monthly magazine) is published by Pratiyogita Darpan Group in India and is one of the best Science monthly magazines available for medical entrance examination students in India. Well-qualified professionals of Physics, Chemistry, Zoology and Botany make contributions to this magazine and craft it with focus on providing complete and to-the-point study material for aspiring candidates. Competition Science Vision (monthly magazine) is published by Pratiyogita Darpan Group in India and is one of the best Science monthly magazines available for medical entrance examination students in India. Well-qualified professionals of Physics, Chemistry, Zoology and Botany make contributions to this magazine and craft it with focus on providing complete and to-the-point study material for aspiring candidates. The magazine covers General Knowledge, Science and Technology news, Interviews of toppers of examinations, study material of Physics, Chemistry, Zoology and Botany with model papers, reasoning test questions, facts, quiz contest, general awareness and mental ability test in every monthly issue. The theoretical and experimental determinations of the aerodynamic coefficients of the RFD-2 re-entry vehicle are presented. The resulting coefficients are incorporated into an aerodynamic analysis of the re-entry trajectory where the changes of configuration and the resultant changes in the physical and aerodynamic parameters of the vehicle are considered. Radar and camera-tracking data were obtained from the flight test which took place October 9, 1964. These experimental trajectory data correlated with the calculated trajectory within 400 feet of distance or 1 second of flight time throughout the re-entry flight.

Cracking IAS Prelims Revision Files – Indian Polity (Vol. 3/9) is the 1st ebook of a series of 9 eBooks specially prepared to help IAS aspirants cross the milestone of Preliminary Exam. The ebook is aimed at Revision cum practice so as to develop confidence to crack the IAS Prelim Exam.
