Turn your child's summer vacation into a learning adventure with Summer Quest(TM)! The fun, engaging format and daily quests make learning fun and active. Just 15 minutes of activities each day will get your first grader ready for the next school year! Includes topics in math practice, handwriting, reading comprehension, fitness and easy science experiments! Also features an incentive chart, certificate of completion, stickers, and a skills checklist! The most comprehensive book ever written on playing blackjack for profit, Blackjack Blueprint covers everything from basic strategy to counting cards, from maximizing potential going solo to playing on a blackjack team. Casino comps, location play, shuffle tracking, playing in disguise, outwitting the eye in the sky, and other advantage-play techniques—it's all here. This revised edition contains new information on getting reimbursed for airline tickets, negotiating and optimizing rebates on gambling losses, hiding chips and disguising wins, security while on blackjack-related websites, protecting your personal privacy when making large cash transactions at casinos, and more. Empower Yourself! More than half the general population suffers from a GI condition that needs medical attention. Whether you're a newly diagnosed patient or a loved one of someone suffering from a digestive disorder, this book offers help. The only text available to provide both the doctor's and patient's views, 100 Questions & Answers About Digestive Health, provides practical, authoritative answers to 100 of the most common questions asked. Written with commentary from actual patients, this is an invaluable resource for anyone struggling with the medical, physical, and emotional turmoil of this disease.

The only textbook that completely covers the Oxford AQA International A Level Mathematics specification (9660), for first teaching in September 2017. Written by experienced authors, the clear, international approach ensures strong mathematical understanding and provides exam-focused practice to build assessment confidence. This textbook helps students to develop the key mathematical, reasoning and problem solving skills needed for the exam success and provides an excellent grounding for university study. Correct medicines management for adults is a crucial skill that adult nursing students must develop in order to provide safe care to their patients. This book specifically supports pre-registration students in meeting the required competencies for medicines management needed to pass formal assessment and qualify as an adult nurse. It is clearly structured around the NMC Essential Skills Clusters for medicines management, covering legal aspects, drugs calculations, administration, storage, record keeping, introductory pharmacology, patient communication and contextual issues in medication. The book is written in user-friendly language and uses patient scenarios to explain concepts and apply theory to practice. Learn to calculate dosages accurately and administer drugs safely! Gray Morris's Calculate with Confidence, Second Canadian Edition uses a clear, step-by-step approach to make drug dosage calculations easy. More than 2,000 practice questions help you review basic math and then master the three standard methods of dosage calculation: ratio and proportion, formula, and dimensional analysis. With the increasing responsibility of the nurse in mind, emphasis is placed on critical thinking and clinical reasoning in preventing medication errors. Reflecting current practice in Canadian health care, this book also provides excellent preparation for Canadian licensure exams! SI measurement units and generic/Canadian drug names are included throughout the text. Practice problems and real-world examples help students master correct dosage calculations and safe medication administration, with rationales included in practice problem answers to enhance the understanding of principles. Tips for

Clinical Practice boxes summarize information critical to math calculation and patient safety. Safety Alert! boxes highlight common medication errors and identify actions that must be taken to avoid calculation errors. Chapter Review problems test student knowledge of all major topics presented in the chapter. Pre-Test review includes practice problems to help students assess their basic math skills and identify their strengths and weaknesses, covering fractions, decimals, percentages, and ratio and proportion. Post-Test in Unit One allows students to assess and evaluate their understanding after completing the chapters on basic math. Comprehensive Post-Test at the end of the book covers dosage calculations and conversions, using real-life drug labels and situations. NCLEX® exam-style questions on Evolve help students prepare for the type of questions seen on the NCLEX-RN® Examination. NEW! Next Generation NCLEX-RN® exam-style case studies on the Evolve website provide drug calculation practice for the Next Generation NCLEX Examination. NEW! Increased number of Clinical Reasoning exercises builds students' critical thinking skills, with a focus on preventing medication errors. NEW! Thoroughly updated content includes the latest Health Canada-approved medications, current drug labels, the latest research, Canadian statistics, commonly used abbreviations, and recommended practices related to medication errors and their prevention. NEW! A-Z medication index references the page numbers where drug labels can be found. NEW! Tips for Clinical Practice from the text are now available on Evolve in printable, easy-reference format. The dramatic shifts seen over the last few years—from economic to political to moral to beyond—have set the stage for a crisis that will affect every sphere of society. But this crisis isn't just looming in the United States; all of humanity is at a crossroads like never before. Mike Bickle, director of the International House of Prayer of Kansas City, offers God's definitive answer to this approaching global crisis. He provides a fresh biblical perspective on: The agenda to secularize and de-Christianize America What the upsurge of secular humanism looks like The rise of ISIS and Islamic extremists The looming financial crisis Readers will overcome fear and confusion in the last days and learn to pray effectively for this nation and the world. Accepting Ourselves and Others

The Dirichlet Green's function for the interior of a hemisphere has been found and an integral expression for the electrostatic potential is given. A computer program has been written to calculate the potential and plot equipotential lines for cases with azimuthal symmetry in internal charge distribution and surface potential. Graphs of ϕ are given for an evacuated hemispherical chamber where the walls are divided into three elements. This triode configuration can be used as a vacuum tube device or as a retarding potential analyzer. The use of the device as an energy analyzer is discussed and methods for calculating its spectral response are given. A particular model of the device has been successfully used to measure low-energy electron emission due to high energy radiation. (Author).

Pass the 2020 Texas VUE Real Estate Salesperson Exam effortlessly on your 1st try. In this simple course, which includes both the Texas state and VUE question and answer exam prep study guide, not only will you learn to pass the state licensing exam, you will also learn: - How to study for the TX exam quickly and effectively. - Secrets to Passing the Real Estate Exam even if you do not know the answer to a question. - How to tackle hard real estate MATH questions with ease and eliminate your fears. - Tips and Tricks from Real Estate Professionals, professional exam writers and test proctors.
