Star Map Apr 11 2021 *Star Map: A Journey of Faith, Doubt, and Meaning* is a touching and deeply personal philosophical memoir about a young man's wrestling match with fanatical faith and his frantic search for truth and meaning. Against the backdrop of pressing social issues of the 1960s such as the Vietnam War and the civil rights movement, Lewis Vaughn's journey transforms him from a young Christian fundamentalist to a disillusioned agnostic to an atheist seeker of meaning in a godless world. A single horrifying moment begins the breakdown of his faith, and the following examination of his faith's tenets eventually erodes it completely. But the struggle to survive the ravages of doubt is only half the tale. After the collapse of his religious beliefs and the sense of purpose it imparted, he feverishly sets out to discover whether there could be any meaning in life at all without religion. Along the way he stumbles on the strongest empirical argument against the reliability of faith as a source of knowledge, and sees that life does indeed have meaning

without religion. In the end, he never regains the faith he lost, but finds something better.

Pojman and Lewis Vaughn's *The Moral Life: An Introductory Reader in Ethics and Literature* brings together an extensive and varied collection of eighty-four classical and contemporary readings on ethical theory and practice. Once introduced, these topics are developed further through readings by philosophers including Plato, Aristotle, Kant, Singer, and Sartre. New to this edition are readings by James Rachels, Alasdair MacIntyre, Samuel Butler, Bertrand Russell, James Q. Wilson, John Corvino, and Stephen Nathanson. This unique anthology emphasizes the personal dimension of ethics, which is often ignored or minimized in ethics texts. It also incorporates chapter introductions, study questions, suggestions for further reading, biographical sketches of the writers, and an appendix about how to write a philosophy paper.

Bad Arguments Nov 18 2021 A timely and accessible guide to 100 of the most infamous logical fallacies in Western philosophy, helping readers avoid and detect false assumptions and faulty reasoning You'll love this book or you'll hate it. So, you're either with us or against us. And if you're against us then you hate books. No true intellectual would hate this book. Ever decide to avoid a restaurant because of one bad meal? Choose a product because a celebrity endorsed it? Or ignore what a politician says because she's not a member of your party? For as long as people have been discussing, conversing, persuading, advocating, proselytizing, pontificating, or otherwise stating

their case, their arguments have been vulnerable to false assumptions and faulty reasoning. Drawing upon a long history of logical falsehoods and philosophical flubs, *Bad Arguments* demonstrates how misguided arguments come to be, and what we can do to detect them in the rhetoric of others and avoid using them ourselves. Fallacies—or conclusions that don't follow from their premise—are at the root of most bad arguments, but it can be easy to stumble into a fallacy without realizing it. In this clear and concise guide to good arguments gone bad, Robert Arp, Steven Barbone, and Michael Bruce take readers through 100 of the most infamous fallacies in Western philosophy, identifying the most common missteps, pitfalls, and dead-ends of arguments gone awry. Whether an instance of sunk costs, is ought, affirming the consequent, moving the goal post, begging the question, or the ever-popular slippery slope, each fallacy engages with examples drawn from contemporary politics, economics, media, and popular culture. Further diagrams and tables supplement entries and contextualize common errors in logical reasoning. At a time in our world when it is crucial to be able to identify and challenge rhetorical half-truths, this book helps readers to better understand flawed argumentation and develop logical literacy. Unrivaled in its breadth of coverage and a worthy companion to its sister volume *Just the Arguments* (2011), *Bad Arguments* is an essential tool for undergraduate students and general readers looking to hone their critical thinking and rhetorical skills.
