This book provides a practical guide to crisis intervention. It emphasizes the role of violence, patient suicide, long-term sequelae of trauma, clinical assessment and risk management, professional boundaries and burn-out, and the neurophysiology of trauma, as well as the needs of underserved patient populations including minority group members, older adults, gays and lesbians, and children. It features critical reviews of controversial topics, including EMDR, critical incident stress debriefing, recovered memories, dissociative identity disorder, and alternative medicine. In this exceptional new sixth edition, the author has retained the practical framework for offering immediate problem-solving assistance to persons in crisis. Therefore, the goal of this updated and expanded edition is to provide knowledge and methods applicable to particular crisis circumstances. Specific topics include: core concepts that are fundamental to all intervention efforts, crisis theory and the philosophy of crisis intervention, basic communication and problem-solving skills, suicide prevention, assistance for terminally ill persons, bereavement counseling, intervention with crime victims, rape counseling, negotiating with armed perpetrators, group strategies, family and marital interventions, disaster relief, case management, physical facilities, modes of contact, community relations, selection, training, and burnout prevention procedures. The handbook also details a review of the research on crisis intervention and how individual intervenors can build upon that knowledge. Numerous case examples presented in the handbook (with fictitious names) are based on actual occurrences the author has encountered. The techniques in this book are applicable to crisis centers, hotlines, Internet-based services, victim-assistance programs, college counseling centers, hospitals, schools, correctional facilities, children and youth programs, and other human service settings. The Study Questions at the end of each chapter are designed to serve as useful applications of crisis intervention theories and principles. Intended for caregivers whose work involves crisis intervention efforts, this is an informative resource for counselors, social workers, psychologists, nurses, physicians, clergy, correctional officers, parole and probation officers, and lay volunteers. As a result of the growing amount of acute crisis events portrayed in the media that impact the lives of the general public, interest in crisis intervention, response teams, management, and stabilization has grown tremendously in the past decade. However, there exists little to no literature designed to give timely and comprehensive help for crisis intervention teams. This is a thorough revision of the first complete and authoritative handbook that prepares the crisis counselor for rapid assessment and timely crisis intervention in the 21st century. Expanded and fully updated, the Crisis Intervention Handbook: Assessment, Treatment, and Research, Third Edition focuses on crisis intervention services for persons who are victims of natural disasters, school-based and home-based violence, violent crimes, and personal or family crises. It applies a unifying model of crisis intervention, making it appropriate for front-line crisis workers-clinical psychologists, social workers, psychiatric-mental health nurses, and graduate students who need to know the latest steps and methods for intervening effectively with persons in acute crisis. Featuring new chapters on bullying, sexual assault, natural disasters, eating disorders, and cultural considerations, the second edition of this highly popular Handbook provides a one-stop reference for mental health professionals who face a bewildering variety of school-based crises. Key features include a focus on both prevention and intervention and ongoing discussions of the research that underlies best practice. Like the first edition, chapters follow a parallel structure that includes: \*the incidence, prevalence, and impact of the crisis; \*theories regarding precipitating factors; \*discussion of who is at risk for encountering the crisis; \*primary prevention activities; \*methods of working with high-risk clients; \*developmentally-appropriate methods and intervention activities for individuals; and \*developmentally-appropriate methods and activities for groups. The result is an unusually coherent volume that is suitable for graduate work in school psychology, school counseling, school social work, and school nursing, or as a reference work for in-service practitioners. Crisis Assessment, Intervention, and Prevention, 2/e by Lisa Jackson-Cherry and Bradley Erford is the most effective training tool available for various mental health professionals preparing to help in crisis situations. A concise and informative resource for mental health professionals, this textbook is filled with vital information on assessing and reacting to various crises of our time, presenting the most important topics related to successfully intervening and responding in a series of crisis situations that warrant adequate preparation by helping professionals from all subsets of the community. Uniquely, the book includes perspectives and roles of clinical mental health counselors, school counselors, and pastoral counselors when assisting in crisis situations, and includes vital information on assessing and reacting to various crises of our time. Readers will be presented with the most important topics related to successfully intervening and responding in a series of crisis situations that are unfortunately common, but warrant preparation by helping professionals today. The topics cover the basics and overview of crisis intervention, how to react, the essentials of crisis intervention, understanding grief and loss, intervening with clients who are suicidal, the violence between intimate partners, child victims of sexual assault and abuse, adult sexual assault and sexual abuse victims, addressing substance abuse and dependence within the crisis context, emergency preparedness, and counseling military families. The authors also address topics such as death notifications, diagnostic impressions, and homicidal risk assessment, field experiences, and diverse activities, and integrate the approaches from various counseling specialties. Examples and case studies are included in each chapter. Written as a training resource for various mental health professionals in the field including clinical mental health counselors, school counselors, and pastoral counselors, similarly, schools of social work,

psychology, and criminal justice will find applicable information for how to address crisis situations. Graduate programs as well as upper level undergraduate programs will find this book an effective tool in teaching crisis intervention to their students. With its practical, hands-on approach, this text is perfect for counselors, human service workers, law enforcement, nurses, psychologists, social workers or other professionals who encounter crisis situations. This book is designed to aid in practical, day-to-day, on-the-scene crisis intervention. Lead your Organization through any business crisis—and emerge stronger than ever Manager's Guide to Crisis Management provides the basic skills and knowledge you need to deal with the crises that inevitably occur in any business or organization. Covering every aspect of the topic—from defining crisis management and policies to training for and responding to crises—it helps you fully grasp any situation that threatens business, careers, and even lives. Lead through any crisis smoothly and with minimal ramifications by mastering the most effective tactics, including: Planning for and training staff in crisis management Anticipating and preventing crises before they occur Managing the company's online reputation Addressing crises that affect multicultural stakeholders Creating effective crisis-related messaging Knowing when to bring in a specialist About the Briefcase Books series: Briefcase Books, written specifically for today's busy manager, feature eye-catching icons, checklists, and sidebars to guide managers step-by-step through everyday workplace situations. Look for these innovative design features to help you navigate through each page: Key Terms: Clear definitions of key terms and concepts Smart Managing: Tactics and strategies for managing crises Tricks of the Trade: Tips for executing the tactics in the book Mistake Proofing: Practical advice for minimizing the possibility of error Caution: Warning signs for when things are about to go wrong For Example: Examples of successful crisis management Tools: Specific planning procedures, tactics, and hands-on techniques Criminal justice professionals are confronted with crisis situations on a daily basis in an era when crime ranks in the forefront of domestic social issues, and the administration of criminal justice is a major concern of public officials and the public. This expanded new edition delves into the historical perspective of crisis intervention and examines the advancements that have been made in order to reflect the latest developments in the field. It is intended for pre-service and in-service criminal justice and social service crisis interveners who come into contact with victims of domestic/spouse abuse, child abuse and neglect, rape and sexual assault, loss of a loved one, or any other type of crisis. This book deals extensively with the special considerations involved in intervening in nonsecure field settings and provides an updated strategy for teaching crisis intervention in the criminal justice curriculum. Step-by-step procedures and numerous examples and role-plays teach readers how to intervene in crises. The intervener is also provided information on self assessment in a field setting and coping with the stresses of frontline work. A statement of objectives, a summary, and learning activities are included in each chapter. The appendices include useful World Wide Web sites, guidelines and scenarios for role-plays, and course outlines for instructors. This unique book is designed for firefighters, police officers, community service officers, correctional workers, emergency medical workers, ministers, probation and parole officers, protective service workers, social workers, and victim assistance workers. This guide aims to help crisis interventionists, family members, and anyone else that finds themselves helping someone in crisis. It focuses on listening, respect, empathy, understanding, coping skills, safety plans, self-care, and so much more. cs.fmly\_consm\_scs.strss Handling crisis situations is a scary and often intimidating task for many beginning and even seasoned counselors, social workers, human service workers, psychologists, nurses, police officers and other professionals. Assessment is the foundation and most critical process in crisis intervention since it helps provide the practitioner with essential information reducing the trial and error method that many practitioners find themselves using Myer discusses a three-dimensional model for understanding the assessment process using affect, cognition, and behavior reactions as the three core components of the assessment process. Unique in its focus on assessment in crisis intervention, this text provides a needed element that is often left out or treated superficially in other crisis intervention texts. This manual offers practical, field-tested methods for dealing with life-changing events. It presents useful strategies for crisis prevention, functioning effectively during a crisis, caring treatment approaches and after care. It also provides explanations of proven practice techniques and examples of effective interventions. Since 2006, specialists, doctors, psychologists, and therapists of Parzival-Zentrum Karlsruhe have taken part in emergency education crisis interventions, carried out by the organization Friends of Friends of Waldorf Education. They work with psychologically traumatized children and young people in war zones and disaster areas, including Lebanon, China, the Gaza Strip, Indonesia, Haiti, Kyrgyzstan, and most recently in Japan following the tsunami there and the Fukushima Daiichi nuclear disaster. Bernd Ruf, who heads these operations, describes in his book in various ways the basics of anthroposophically extended “emergency education,” including the anthroposophic understanding of trauma itself. In addition, he describes processes and experiences, focusing on recent experiences in Japan at the center of his descriptions. Educating Traumatized Children offers much-needed insight into this little-known area of education and healing for traumatized children and young people. This book will be valuable not only for those working in areas of disaster and armed conflict, but also for any teacher or parent who is teaching or caring for a traumatized child. What could be more timely than this outstanding update on crisis intervention theory and its application to current concerns facing the mental health delivery system? Howard and Libbie Parad's opening chapter on crisis intervention is state-of-the-art and should be required reading for everyone in mental health care, regardless of experience or service setting. With a rapidly increasing demand for crisis intervention services, all clinicians need to be familiar with the applications of crisis intervention techniques. A generation ago, Howard Parad took major leadership in developing and introducing crisis intervention theory and practice. Building on this tradition and in the context of a very different world, Libbie and Howard Parad have developed a well-integrated and edited volume that presents the latest in theory and practice in the areas of stress, crisis, and time limited treatment. This volume offers expanded and sophisticated conceptualizations of the meaning of stress in mental and emotional health and illness. It guides readers to a number of valuable and practical brief therapy models for prevention, change and growth. Crisis Intervention, Book 2 is an invaluable resource for all clinical practitioners, trainers, and teachers. cs.fmly\_consm\_scs.strss Practical Information and Tools to Create and Implement a Comprehensive College Campus Crisis Management Program Written by three seasoned crisis intervention/prevention specialists with over fifty years combined experience in the field, This is NOT a Fire Drill: Crisis Intervention and Prevention on College Campuses is a practical guide to creating a comprehensive college campus crisis management program. Authors Rick Myer, Richard James, and Patrice Moulton provide university administrators, faculty, and staff with invaluable hands-on examples, general tactics, and strategies along with specific prevention, intervention, and post-crisis logistics and techniques that can be applied to almost any crisis likely to be confronted on a college campus. This is NOT a Fire Drill features a host of helpful resources, including: A proven individual/organization assessment tool to ensure school professionals and staff take appropriate action to protect students, the college, and the community Thought-provoking case examples, activities, and illustrative dialogues that provide opportunities for reflection and practice A checklist to get a crisis prevention and intervention plan for human dilemmas up and running A decision-tree model to guide the response and recovery to crisis This is NOT a Fire Drill provides the necessary tools to address the emotional, cognitive, and behavioral responses of students and staff as they attempt to negotiate a crisis and its aftermath. This manual is meant to help prepare your agency to perform some of the most challenging work: helping people through crisis. Dr. Brooks has worked in the mental health field for over thirty years with a specialty in crisis, and for the last ten years, she has been training counseling students in crisis intervention. Natural disasters, mass shootings, refugee crises, human sex trafficking, etc. show the growing need for individuals to be prepared to sit with others in their suffering. The need is growing, yet the workers are few. Dr. Brooks has

recognized that more and more organizations, disciplines, and ministries are doing crisis intervention with little to no knowledge or understanding of the effects that working with people in crisis has on the crisis worker. This manual will help you gain a better understanding of how trauma affects an individual, as well as how working with people in crisis can affect the interventionist. This information can help you work more effectively by training you and your team members in self-sustainment. This Christian perspective of intervention will help you and your agency become more Christ-like in your approach by instilling a confidence and hope in the most horrific of circumstances, while still maintaining your strong faith in the goodness of God. The preventative practices provided in this manual will help prevent burnout, compassion fatigue, and vicarious trauma for crisis interventionist. Designed to help in day-to-day, on-the-scene crisis intervention, **ELEMENTS OF CRISIS INTERVENTION: CRISES AND HOW TO RESPOND TO THEM**, 3e offers a nuts-and-bolts presentation of the most important information and concepts needed to be an effective crisis worker. Using a practical, hands-on approach, this one-of-a-kind text provides information, strategies, and guidelines in a quick-reference, outline format. The emotional equivalent of physical first aid, crisis intervention is the act of interrupting the downward spiral of maladaptive behavior as skillfully and as quickly as possible--and returning the sufferer to a pre-crisis level of coping. Effective crisis intervention is about management, not resolution. The goal of this text is to present the basic elements of crisis intervention so that they can be applied to varying crisis situations. A concise handbook for helping professionals who work on the front lines of crisis intervention, it is perfect for crisis interveners, first responders, counselors, nurses, disaster responders, EMTs, law enforcement, human service workers, psychologists, social workers, teachers, agency directors, military, and any other professionals who encounter crisis situations. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version. This definitive illustrated guide helps schools develop contingency plans and train on-site response teams in crisis management. Updated with new information on the impact of crisis on children, detailed strategies and procedures teach how to manage any emergency that may hit a school. 100 charts can be reproduced as overheads or copied for training sessions. Core text for crisis intervention courses in Counseling, Social Work, and Clinical Psychology. Here is how some reviewers have described the text. This text presents a compelling argument that victims of crisis and trauma can recover and grow into strong and healthy survivors. The text's emphasis on resilience is an important next step in the evolution of this helping technique. Its detailed explanation of the techniques that utilize the strength of survivors is valuable for neophytes and experienced helpers alike. The exercises and discussion questions presented move it from a theory based text into a valuable tool for skill development. This text is a very valuable addition to the literature on crisis intervention. Thomas W. Rueth, University of Dayton The writing is excellent and well thought out. The ideas are presented clearly, the stories used in each chapter are excellent, and the authors do an excellent job integrating their stories with the content of each chapter. Chris McCarthy, University of Texas at Austin Crisis Intervention! stands out as a cutting edge text among books on crisis intervention. and current. Clearly, the art and science of crisis intervention is conveyed through the use of research, story, literature exemplars, activities, and practical approaches. Nicholas Mazza, Florida State University **CRISIS INTERVENTION STRATEGIES**, 6th Edition is designed to equip helping professionals with the practical skills and procedures they will need to handle real crisis situations. Using an applied format that integrates strategies and case material (based upon real life crisis situations), James present a six-step model that gives students and practitioners a systematic way of dealing with people in crisis: Defining the Problem, Ensuring Client Safety, Providing Support, Examining Alternatives, Making Plans, and Obtaining Commitment. Using this model, the author then builds specific strategies for handling a myriad of different crisis situations - in many cases providing the dialogue the nurse, minister, police officer, counselor, or other practitioner might use. At the end of the course, your students will have developed skills and strategies that they can take out of the classroom and onto the street. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version. Authoritative and based on the authors' extensive experience teaching crisis intervention courses, this best-selling text presents the latest skills and techniques for handling real crisis situations. The author's six-step model clearly illustrates and elucidates the process of dealing with people in crisis: Defining the Problem, Ensuring Client Safety, Providing Support, Examining Alternatives, Making Plans, and Obtaining Commitment. Using this model, the author then builds specific strategies for handling a myriad of different crisis situations, accompanied in many cases with the dialogue that a practitioner might use when working with the individual in crisis. New videos, available through a DVD and through CourseMate (both of which are available for packaging with the text), correlate with the text and demonstrate crisis intervention techniques for students who must not only understand the theoretical underpinnings of crisis intervention theories, but also apply them in crisis situations. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version. **Campus Crisis Management** is a practical resource that helps campus administrators evaluate, revise, or establish a comprehensive crisis management plan appropriate for their college or university. Filled with examples, assessment tools, and checklists, this book describes the individuals who should be involved in developing a campus plan, what a plan should include, as well as a variety of crisis events and issues that should be addressed in a comprehensive crisis management plan. Including contributions from renowned practitioners at all levels, this fully revised, new edition contains the must-have information on crisis management, such as: How to develop a comprehensive crisis management system The different types of crises using the crisis matrix The structure, operation, and training of a crisis team Strategies for working with the media New chapters addressing behavioral intervention teams, active shooter situations, Title IX guidance, campus demonstrations, outbreaks of infectious and contagious diseases, and special event management. From a senior administrator working with an institution-wide emergency operations team, to a new professional looking to develop plans and protocols to respond to critical incidents, **Campus Crisis Management** is a comprehensive guide to planning and preparing for campus emergencies of any scale. This invaluable practitioner guide and text shows how cognitive-behavioral interventions can help people weather situations of extreme stress and build needed skills for the future. Leading authorities describe effective, time-efficient approaches to managing different types of crises: those related to particular psychological problems, such as panic disorder, suicidal depression, and personality disorders; medical crises; child and family crises; and environmental and situational crises, including large-scale traumatic events. Vivid case material illustrates what the interventions look like in action and how to tailor them to individual clients' needs. Crisis workers make split-second decisions every day that affect the mental health and well-being of individuals, families, and entire communities. They support and guide people through health diagnoses, bankruptcies, sexual assaults, deaths of loved ones, suicide attempts, and natural or man-made disasters from the front lines. While professions vary from mental health professionals, emergency responders, educators, business managers or volunteers such as suicide hotline workers, all have a common and urgent need for a rapid reference that covers every type of traumatic event they may be asked to respond to in the course of an unpredictable and highly stressful day. The **Pocket Guide to Crisis Intervention** is a complete crisis toolkit, a trusted resource to consult on the fly, packed with easy-to-follow, step-by-step evidence-based protocols for responding effectively to a broad range of traumatic events. Checklists, bullets, and boxes highlight symptoms & warning signs and provide action plans, do's & don'ts, and screening & assessment questions. The open layout and two-color design make this pocket guide as visually appealing as it practical, ensuring at-a-glance lookup of the essentials of managing the most common types of crisis. More than just a collection of action lists, though, this pocket guide explains theories and models in clear, jargon-free language, offering tips for clinical practice, treatment planning, referrals, and coordinating services as needed. It can be used as a

field manual for seasoned professionals or as a training tool for new recruits and practitioners seeking to sharpen their skills. Crisis intervention from a criminal justice perspective. Crisis Intervention: The Criminal Justice Response to Chaos, Mayhem, and Disorder introduces readers to the methods and techniques of crisis intervention employed by police and correctional officers. Rather than focusing on abstract theories, this text presents real-life situations first and then explores the theories and methods relevant to those situations. It goes beyond the simple presentation of facts and incorporates best practices of policing and other topics usually found only in police training manuals. The text also examines the psychological effects of crisis on criminal justice professionals and ethical considerations related to crisis response. First responders "protect and serve." They maintain order, prevent chaos, and keep this country safe and secure. Many of the freedoms enjoyed today are the result of U.S. first responders protecting and caring for U.S. citizens. Whether it is a terrorists attack, a criminal victimizing a citizen, or a natural disaster, first responders will be among the first on the scene to deal with the crisis. For this reason, their role in homeland security is so critical. Traumatic stress experienced by first responders may impact their ability to function and handle the next critical incident, as well as obstruct public safety agencies in maintaining a robust and resilient workforce. As a result, leaders of first responder organizations need methods to recognize the different levels of stress their employees are experiencing and identify ways they can support their officers and minimize long-term effects of stress, including absenteeism, early resignation/retirement, depression, post-traumatic stress, substance abuse, and suicide. Critical Incident Stress Management (CISM) is the standard clinical practice most widely utilized by public safety agencies in crisis interventions. CISM is designed to mitigate stress and Post Traumatic Stress Disorder (PTSD). Another technique to help the traumatized, now emerging as a preferred response in crisis interventions, is Psychological First Aid (PFA). The empirical evidence is examined comparing CISM and PFA in an attempt to determine the best care for first responders. Another valuable tool examined, and sometimes overlooked as a crisis intervention tool, is the role of trained chaplains in disaster care. The author has responded to numerous traumatic incidents and witnessed firsthand the effects trauma has on first responders. As a result of witnessing the lack of care CISM provides, he was inspired to research and find the best approach to crisis interventions. PFA and trained chaplains may be the answer; however, the author also desires that this paper inspire and challenge other agencies to invest, conduct further research, and ultimately, find the best approach to crisis interventions. Rev. ed. of: Crisis intervention and counseling by telephone / edited by David Lester. An authoritative reference which offers clear, concise guidelines for effectively counseling patients overwhelmed with crisis situations. This book provides thorough coverage of short-term therapy, which spans disciplines such as nursing, social work, community and public health, psychology and counseling. Provides readers with the skills necessary to handle any crisis situation. This title utilizes the comprehensive ABC Model of Crisis Intervention, which can be used as effectively for day-to-day interactions as for emergency situations. When a student is in dire need of emotional support, caring adults in the school can make a difference. This essential resource helps practitioners prepare all school personnel to respond sensitively and effectively to children and adolescents in crisis. Packed with user-friendly features--including over 50 reproducible tools--the book provides crucial guidance for helping students cope with such stressful circumstances as bullying, abuse, parental divorce, chronic illness, depression, loss, and more. The emphasis is on giving teachers and staff basic crisis intervention skills: how to react, what to say, and what to do to create a safe and supportive environment. In a large-size format with lay-flat binding to facilitate photocopying, the volume's utility is enhanced by many specific training ideas and activities. This book is in The Guilford Practical Intervention in the Schools Series. Designed for students in counseling, psychology, social work, and human services, as well as crisis workers in-training, this text combines a general introduction to crisis theory and intervention with practical strategies for counseling crisis victims. The L-A-P-C model—a simple yet effective set of intervention techniques applicable to any type of crisis situation by crisis workers at any level of experience—is introduced in Chapter 2. Characteristics of effective crisis counseling and an overview of other theoretical intervention models are also presented throughout the text. Types of crises are examined in Chapters 3 through 9. Topics include child abuse and neglect, family violence, drug addiction, suicide, rape or sexual assault, and loss of a loved one. Large-scale crises and interventions are addressed in Chapter 10. The text looks at how communities, professional organizations, and the government respond to events like natural disasters. Special consideration is given to the strategies employed following the terrorist attacks of 9/11.
