Description: Letter is from John Worsley to the Stationers' Company. This carefully edited collection of "THE COMPLETE AUTOBIOGRAPHICAL WORKS OF S. T. COLERIDGE (Illustrated Edition)" has been designed and formatted to the highest digital standards and adjusted for readability on all devices. Samuel Taylor Coleridge (1772-1834) was an English poet, literary critic and philosopher who, with his friend William Wordsworth, was a founder of the Romantic Movement in England and a member of the Lake Poets. He wrote the poems The Rime of the Ancient Mariner and Kubla Khan, as well as the major prose work Biographia Literaria. His critical work, especially on Shakespeare, was highly influential, and he helped introduce German idealist philosophy to English-speaking culture. He coined many familiar words and phrases, including suspension of disbelief. He was a major influence on Emerson, and American transcendentalism. Coleridge is one of the most important figures in English poetry. His poems directly and deeply influenced all the major poets of the age. He was known by his contemporaries as a meticulous craftsman who was more rigorous in his careful reworking of his poems than any other poet, and Southey and Wordsworth were dependent on his professional advice. Table of Contents: Biographia Literaria (By Samuel Taylor Coleridge) Anima Poetae (By Samuel Taylor Coleridge) Bibliographia Epistolaris (Samuel Taylor Coleridge) Complete Letters of S. T. Coleridge The Spirit of the Age: Mr. Coleridge by William Hazlitt A Day With Samuel Taylor Coleridge by May Byron The Life of Samuel Taylor Coleridge by James Gillman IELTS Academic Writing Task 1 can be the most difficult part of the IELTS test, especially when the Task involves data, charts and graphs. Fourteen years since its establishment,the work of the African Commission on Human and Peoples' Rights has not received the attention that should have been paid to its important contributions towards the promotion and protection of human rights in Africa. The aim of this publication is to provide not only the basic documents, but also the less well known material related to the jurisprudence emanating from the consideration of communications. This volume therefore includes, amongst other material, the twelve activity reports adopted by the Commission, resolutions, and final communiqués from the sessions. This is the first attempt to reproduce comprehensively the many documents of the Commission adopted since its inception in 1987. It will be an essential reference for academics, students, and practitioners. The publication is produced in collaboration with the African Society for International and Comparative Law, the Centre for Human Rights at the University of Pretoria and Interights in London. Offers tips on effective business communication, and contains over three hundred sample business letters for different business situations Writers know only too well how long it can take—and how awkward it can be—to describe spatial relationships with words alone. And while a map might not always be worth a thousand words, a good one can help writers communicate an argument or explanation clearly, succinctly, and effectively. In his acclaimed How to Lie with Maps, Mark Monmonier showed how maps can distort facts. In Mapping it Out: Expository Cartography for the Humanities and Social Sciences, he shows authors and scholars how they can use expository cartography—the visual, two-dimensional organization of information—to heighten the impact of their books and articles. This concise, practical book is an introduction to the fundamental principles of graphic logic and design, from the basics of scale to the complex mapping of movement or change. Monmonier helps writers and researchers decide when maps are most useful and what formats work best in a wide range of subject areas, from literary criticism to sociology. He demonstrates, for example, various techniques for representing changes and patterns; different typefaces and how they can either clarify or confuse information; and the effectiveness of less traditional map forms, such as visibility base maps, frame-rectangle symbols, and complementary scatterplot designs for conveying complex spatial relationships. There is also a wealth of practical information on map compilation, cartobibliographies, copyright and permissions, facsimile reproduction, and the evaluation of source materials. Appendixes discuss the benefits and limitations of electronic graphics and pen-and-ink drafting, and how to work with a cartographic illustrator. Clearly written, and filled with real-world examples, Mapping it Out demystifies mapmaking for anyone writing in the humanities and social sciences. "A useful guide to a subject most people probably take too much for granted. It shows how map makers translate abstract data into eye-catching cartograms, as they are called. It combats cartographic illiteracy. It fights cartophobia. It may even teach you to find your way."—Christopher Lehmann-Haupt, The New York Times During the 18th century, letter manuals became the most popular form of conduct literature. They were marketed to and used by a wide spectrum of society, from maidservants and apprentices, through military officers and merchants, to gentlemen, parents and children. This work presents the most influential manuals from both sides of the Atlantic.
