A chance discovery by two diplomats could not have come at a worse time. With the war stuck in stalemate and the diplomatic situation deteriorating by the day, there's neither the resources nor the political will to mount a proper expedition. And yet, the discovery cannot be ignored. Ruins shrouded in mystery, surrounded by phenomenon stranger still. A sky forever in night, snow hanging in the air, and rumors of powerful sorceries held deep within. Dangers from the past freshly stirred could be a source of great danger, or just the thing to get the war moving. And even the wisest of minds eventually falls to the siren song of lost magic. The ruins will be found again, and by less sympathetic hands. Action must be taken. The Triple Crown may lack the resolve, but the College of Wintermoore and the Church of

They won't sit idly by, waiting for the war to end, for someone else to steal what is rightfully theirs. A race is on, to discover what dark answers lie within the ruins, to seize them before anyone else can. Eye of Syl is the first book in the Sylmanara trilogy, but can be read as a standalone novel. Convention 2021, OECD TP Guidelines, and Expert Committee's Report on GAAR For Jordan Duncan, the good life as he knows it comes to an abrupt crossroad when a mysterious client enters his LA office with allegations that the CPA firm Duncan is working for is "in bed" with the Internal Revenue Service. A former college athlete, Jordan has become a successful taxpayer advocate, representing delinquent taxpayers in negotiations with the IRS, who implement a "feed the beast" mentality. Tension is at a fever pitch in Los Angeles in 1995. The intensity mounts as hotly contested tax issues of the 1996 presidential election unfold. With the help of his politically connected girlfriend, an honorable former IRS director, and a grizzled Vietnam vet, Jordan gathers evidence to make a case. But to whom? Taking on the US Department of Treasury is no small task. The IRS seems impenetrable. Political and corporate deception is unraveled within the complex tax system. A murder ensues. The stakes are high.

What started as a question of right and wrong has become a matter of life and death. Can anyone rein in this ravenous bureaucratic tax monster created by the US Congress? Based on true historical events of tax reform that exposed the abusive nature and uncontrolled power of the Internal Revenue Service, Taxman follows Jordan Duncan on a treacherous journey from the beaches of Southern California to the hallowed congressional chambers on Capitol Hill. Shadow of a Taxman investigates how the unrecognised Irish Republic's money was solicited, collected, transmitted, and safeguarded, as well as who the financial backers were and what might have influenced their decision to contribute. The Republic's quest for funds took its emissaries as far afield as New York, Buenos Aires, Cape Town, and Melbourne, as well as virtually every parish in Ireland. By selling 'war bonds' to supporters, it raised £370,165 from 140,000 people in Ireland and nearly \$6m from 300,000 people in the

United States. These bonds promised a return to subscribers when British forces had left Ireland and an independent Irish Republic was internationally recognised. Exploiting newly uncovered documents, *Shadow of a Taxman* reveals the identities of these subscribers. Cross-referencing with census returns, intelligence reports, memoirs, and IRA membership rolls, it provides the first demographic analysis of non-combatant supporters of Irish independence on the eve of its realisation. It also shows how access to funds shaped the course of the Irish War of Independence and, ultimately, Irish republicans' negotiating position with the British government in 1921. ABOUT THE AUTHOR Deborah Bowers is a Solicitor of England and Wales, with a Master of Laws in Commercial and Corporate Law from Queen Mary & Westfield College and a Master of Laws in Business Law from the University of Hertfordshire. She is also a Certified STEP Advanced Will Writer. A soul-wrenching tale of one family falsely accused of criminal tax evasion. Nathan and Elly arrived in Canada in 1973, after travelling five years on horseback

through the three Americas. They became Canadian citizens, raised a family and carved a ranch out of the wilderness in northern British Columbia with Belgian draft horses. In 2006, inexplicably, the family was swept up in the Canada-wide wave of terror originating with the Harper government, intended to spread fear among small business owners, and, through fear, taxpayer compliance. And to divert attention from the off-shore tax havens of the rich. Trail hardened and resilient, Nathan and Elly would not allow themselves to become victims of a bully. They launched a civil lawsuit against the tax agency that attacked them without merit, mercy, or fact. They acted as their own lawyers. The battle lasted ten years. This small book has a big message: when you have the guts to stand up for what you believe, no one has power over you! *Running From The Taxman, A Great American Road Trip*, begins with an array of letters full of pleas and excuses from a fictional character, Simon Shenbetter, to the IRS. Having

not paid his taxes for many years and realizing that he is doomed, Simon hits the road with the little cash he has loaded to a debit card. His road trip is chronicled in frequent emails to his new girlfriend, Maggie, with whom he shares his quest to find humanity in the tax code, along with his vision of the American Dream, and as an added bonus the ideals of characters he meets along the way. 'If we were guaranteed success in everything we tried then life would be pretty boring.' Mainstream news reports about climbing are dominated by action from the world's highest mountains, more often than not focusing on tragedy and controversy. Far removed from this high-altitude circus, a group of visionary and specialist mountaineers are seeking out eye-catching objectives in the most remote corners of the greater ranges and attempting first ascents in lightweight style. Mick Fowler is the master of the small and remote Himalayan expedition. He has been at the forefront of this pioneering approach to

alpinism for over thirty years, balancing his family life, a full-time job at the tax office and his annual trips to the greater ranges in order to attempt mountains that may never have been seen before by Westerners, let alone climbed by them. In *No Easy Way*, his third volume of climbing memoirs following *Vertical Pleasure* and *On Thin Ice*, Fowler recounts a series of expeditions to stunning mountains in China, India, Nepal and Tibet. Alongside partners including Paul Ramsden, Dave Turnbull, Andy Cave and Victor Saunders, he attempts striking, technically challenging unclimbed lines on Shiva, Gave Ding and Mugu Chuli - with a number of ascents winning prestigious Piolets d'Or, the Oscars of the mountaineering world. Written with his customary dry wit and understatement, he manages challenges away - the art of securing a permit for Tibet - and at home - his duties as Alpine Club president - all the while pursuing his passion for exploratory mountaineering. Loneliness, parenting, aging

and morality- these are some of the themes addressed in these compelling stories and poems. In "Blood", a divorced father must cope with a potential health crisis and his bi-weekly visits with his daughter. In the "CFO", a man must deal with his failing marriage and an ethical dilemma, and in "Best Man", the protagonist, a returning soldier, struggles to integrate into society. In the title story, "Taxman", a tax preparer recounts some of his most memorable clients. All of these stories are told with wit, pathos and ultimately hope.
