A woman, exhausted by work and motherhood, hires the services

of a sinister firm that promises her a brand-new life... Journeying across America to make a claim to an inheritance, a man must confront the shame and bigotry that has haunted his family for generations... A picture-perfect holiday threatens to unravel as two daughters come to terms with the uneasy dynamic of their new blended family... The stories shortlisted for the 2022 BBC National Short Story Award with Cambridge University take readers on a journey through uncertain terrain: times and places at once familiar yet deeply unsettling. From the queer love story playing out against a desolate and disease-ravaged landscape, to a man's earnest hunt for the killer of a boy who died in his arms, these stories are about outsiders, who seek safety and security in worlds that are chaotic, unfathomable, sometimes beautiful, and often brutal. With mentors by their sides, the girls and gender-nonconforming youth tackle climate change, racism, sexism, rejection, immigration, and friendship—and take their place in history. This book is their

testament. "The written word has often been the only outlet for women and girls to express their authentic stories and unique voices in so many societies across the globe. Girls Write Now harnesses that power, nurtures it, and amplifies it so that these singular voices can become generations." —Robin Thede, creator, writer, executive producer and star of *A Black Lady Sketch Show*

What does literature reveal about a country's changing cultural identity? In *History, Violence, and the Hyperreal* by Kathryn Everly, this question is applied to the contemporary novel in Spain. In the process, similarities emerge among novels that embrace apparent differences in style, structure, and language. Contemporary Spanish authors are rethinking the way the novel with its narrative powers can define a specific cultural identity. Recent Spanish novels by Carme Riera, Dulce Chacon, Javier Cercas, Ray Loriga, Lucia Etxebarria, and Jose Angel Manas (published from 1995 to 2008) particularly highlight the tension that exists between historical memory and urban youth culture. The novels discussed in this study reconfigure the individual's relationship to narrative, history, and reality through their varied interpretations of Spanish history with its common threads of national and personal violence. In these books, culture acts as mediator between the individual and the rapidly changing dynamic of contemporary society. The authors experiment with the novel form to challenge fundamental concepts of identity when the narrative acknowledges more than one way of reading and understanding history, violence, and reality. In Spain today,

questions of historical accuracy in all foundational fictions--such as the Inquisition, the Spanish Civil War, or globalization--collide with the urgency to modernize. The result is a clash between regional and global identities. Seemingly disparate works of historical fiction and Generation X narrative prove similar in the way they deal with history, reality, and the delicate relationship between writer and reader. This comprehensive and original survey of Russian theater in the twentieth century and into the twenty-first encompasses the major productions of directors such as Meyerhold, Stanislavsky, Tovostonogov, Dodin, and Liubimov that drew from Russian and world literature. It is based on a close analysis of adaptations of literary works by Pushkin, Dostoevsky, Gogol, Blok, Bulgakov, Sholokhov, Rasputin, Abramov, and many others. "The Modern Russian Stage" is the result of more than two decades of research as well as the author's professional experience working with the Russian director Yuri Liubimov in Moscow and London. The book traces the transformation of literary works into the brilliant stagecraft that characterizes Russian theater. It uses the perspective of theater performances to engage all the important movements of modern Russian culture, including modernism, socialist realism, post-modernism, and the creative renaissance of the first decades since the Soviet regime's collapse.

Short Story Writing: A Practical Treatise on the Art of the Short Story by Charles Raymond Barrett is a practical guide to the various elements of the short story. Contents: "1 I The Short Story 15 II Short Stories Classified 26 III The Plot 45 IV Titles Good and Bad 64 V The Use of Facts 78 VI The Characters 94 VII Methods of Narration 119 VIII The Beginning 132 IX The Story Proper 149 X Climax and Conclusion." Daniel Tabor discusses the teaching and uses of writing as pupils move from Year 6 at primary school to Year 7 at the secondary school. He covers issues of literacy practice, how writing is taught and used in transition, and continuity. "I feel a kind of reverence for the first book of young authors. There is so much aspiration in them,

so much audacious hope and trembling fear, so much of the heart's history, that all errors and shortcomings are for a while lost sight of in the amiable self assertion of youth." -Henry Wadsworth Longfellow (1807-1882) Twice five years Or less I might have seen, when first my mind With conscious pleasure opened to the charm Of words in tuneful order, found them sweet For their own sakes, a passion, and a power; And phrases pleased me chosen for delight, For pomp or love. -William Wordsworth (1770-1850) This book considers the largely under-recognised contribution that young writers have made to life writing genres such as memoir, letter writing and diaries, as well as their innovative use of independent and social media. The authors argue that these contributions have been historically silenced, subsumed within other literary genres, culturally marginalised or co-opted for political ends. Furthermore, the book considers how life narrative is an important means for youth agency and cultural participation. By engaging in private and public modes of self-representation, young people have contested public discourses around the representation of youth, including media, health and welfare, and legal discourses, and found means for re-engaging and re-appropriating self-images and representations. Locating their research within broader theoretical debates from childhood and youth studies: youth creative practice and associated cultural implications; youth citizenship and autonomy; the rights of the child; generations and power relationships, Poletti and Douglas also position their inquiry within life narrative scholarship and wider discussions of self-representation from the margins, representations of conflict and trauma, and theories of ethical scholarship. education as well as history teachers with an interest in the current issues in their field, *The Wiley International Handbook of History Teaching and Learning* is a comprehensive handbook that explores the increasingly global field of history education as it has evolved to the present day. Written by one of the leading experts on Korea, *A Brief History of Korea* covers the history of Korea from the origins of the Korean people in prehistoric times to the economic and political situation in North and South Korea today. Providing a detailed overview of the cultural and historical influences that have shaped Korean society, the author discusses the major periods of Korean history Three Kingdoms, Koryo Dynasty, and Chosun Dynasty; the foreign invasions Korea has endured; the post-World War II situation that led to the country's division and the Korean War; and developments in North and South Korea from the end of the Korean War up through the present. A juvenile tradition of young writers flourished in Britain between 1750-1835. Canonical Romantic poets as well as now-unknown youthful writers published as teenagers. These teenage writers reflected on their literary juvenilia by using the trope of prolepsis to assert their writing as a literary tradition. Precocious writing, child prodigies, and early genius had been topics of interest since the eighteenth century. Child authors—girl poets and boy poets, schoolboy writers and undergraduate writers, juvenile authors of all kinds—found new publication opportunities because of major shifts in the periodical press, publishing, and education. School magazines and popular juvenile magazines that awarded prizes to child writers all made youthful authorship more visible. Some historians estimate that minors (children and teens) comprised over half the population at the beginning of the nineteenth century. Modern interest in Romanticism, and the self-taught and women writers' traditions, has occluded the tradition of juvenile writers. This first full-length study to recover the late-eighteenth and early-nineteenth-century juvenile tradition draws on the history of childhood and child studies, along with reception

study and audience history. It considers the literary juvenilia of Thomas Chatterton, Henry Kirke White, Robert Southey, Leigh Hunt, Jane Austen, and Felicia Hemans (then Felicia Dorothea Browne)-along with the childhood writing of Byron, Mary Shelley, Percy Shelley, and John Keats-and a score of other young poets-"infant bards "-no longer familiar today. Recovering juvenility recasts literary history. Adolescent writers, acting proleptically, ignored the assumptions of childhood development and the disparagement of supposedly immature writing. The Culture and Commerce of the Short Story is a cultural and historical account of the birth and development of the American short story from the time of Poe. It describes how America - through political movements, changes in education, magazine editorial policy and the work of certain individuals - built the short story as an image of itself and continues to use the genre as a locale within the realm of art where American political ideals can be rehearsed, debated and turned into literary forms. While the focus of this book is cultural, individual authors such as Edgar Allan Poe and Edith Wharton are examined as representative of the phenomenon. As part of its project, this book also contains a history of creative writing and the workshop dating back a century. Andrew Levy makes a strong case for the centrality of the short story as a form of art in American life and provides an explanation for the genre's resurgence and ongoing success. The 20th century was a dynamic period for the theatrical arts in China. The four volumes of A History of Chinese Theatre in the 20th Century display the developmental trajectories of Chinese theatre over those hundred years. This volume examines the development of Chinese theatrical art from the Cultural Revolution to the end of the 20th century. The Cultural Revolution had a devastating influence on the theatrical profession, reducing the creation of performance art to serving the political authorities. Adopting a critical view, the author argues that the Reform and Opening-up of the late 1970s not only ended this

period of political interference, but also brought about chaos and doubts to the theatrical circle, since neither tradition nor western concepts were a panacea for the problems faced by Chinese theatre. He posits that people should advocate patterns of drama that are rich and colourful in their expression while encouraging the coexistence and competition of different artistic concepts. Scholars and students in the history of the arts, especially the history of Chinese theatre, will find this book to be an essential guide. Shakespeare and the Young Writer presents fascinating and impressive accounts of primary school children encountering Shakespeare's work for the first time. Fred Sedgwick shows how careful selection of scenes, lines and images from the plays and sonnets - in their original language - can be used to great effect as the starting point for children's writing. Examples of children's work show just how powerful the stimulus can be. The book will be of great value to all teachers looking for new ideas to improve their practice in teaching literacy. Presents an introduction to historical fiction for readers in grades four through eight, listing eighty titles of works for this age group and providing plot summaries, characters, historical background, and selected passages for discussion. This volume discusses trends in twentieth-century Latin American literature, philosophy, art, music, and popular culture. Perfect for 4th Grade Writers! In this concise volume, Gulnaz Fatma traces the short story from its origins in fables, ancient poetry, and tales such as "The Arabian Nights," to its modern form in the early American stories of Irving, Poe, and Hawthorne, and then through the twentieth century and throughout the world. The elements of

what makes a short story are presented along with a discussion of the difficulties in defining the genre. The short story's relation to the novel as well as its uniqueness as its own form are deftly presented. While the American and European traditions of the short story take up much of this book, the final chapter is a thorough presentation of the short story's development in India. Anyone interested in the short story--teachers, students, writers, and readers--will find this volume informative, thoughtful, and a welcome addition to our understanding of one of literature's most dynamic forms. Gulnaz Fatma is an Indian writer and author. She is a research scholar in the Department of English at Aligarh Muslim University in Aligarh, India. "As a fiction writer who has also taught the short story form, I was impressed by the thoroughness and insight presented in this concise book. Fatma's broad exploration of the short story form is backed by numerous supporting examples and her chapter on the short story in India will introduce many readers to that country's own literary gems." --Tyler R. www.ModernHistoryPress.com Literary Criticism: Short Stories
Literary Criticism: Asian - General This insider's guide to getting published in scholarly communication journals explains what editors and reviewers look for when deciding which articles should be published and which should not. The history of the Lone Star state is a narrative dominated by larger-than-life personalities and often-contentious legends, presenting interesting challenges for historians. Perhaps for this reason, Texas has produced a cadre of revered historians who have had a significant impact on the preservation (some would argue creation) of our state's past. An anthology of biographical essays, *Writing the Story of Texas* pays tribute to the scholars who shaped our understanding of Texas's past and, ultimately, the Texan identity. Edited by esteemed historians Patrick Cox and Kenneth Hendrickson, this collection includes insightful, cross-

generational examinations of pivotal individuals who interpreted our history. On these pages, the contributors chart the progression from Eugene C. Barker's groundbreaking research to his public confrontations with Texas political leaders and his fellow historians. They look at Walter Prescott Webb's fundamental, innovative vision as a promoter of the past and Ruthe Winegarten's efforts to shine the spotlight on minorities and women who made history across the state. Other essayists explore Llerena Friend delving into an ambitious study of Sam Houston, Charles Ramsdell courageously addressing delicate issues such as racism and launching his controversial examination of Reconstruction in Texas, Robert Cotner—an Ohio-born product of the Ivy League—bringing a fresh perspective to the field, and Robert Maxwell engaged in early work in environmental history. Essential reading for the creative writer. Daniel Tabor discusses the teaching and uses of writing as pupils move from year 6 at primary school to year 7 at the secondary school. He covers issues of literacy practice, how writing is taught and used in transition, and continuity. School and public libraries often provide programs and activities for children in preschool through the sixth grade, but there is little available to young adults. For them, libraries become a place for work—the place to research an assignment or find a book for a report—but the thought of the library as a place for enjoyment is lost. So how do librarians recapture the interest of teenagers? This just might be the answer. Here you will find theme-based units (such as Cartoon Cavalcade, Log On at the Library, Go in Style, Cruising the Mall, Space Shots, Teens on TV, and 44 others) that are designed for young adults. Each includes a display idea, suggestions for local sponsorship of prizes, a program game to encourage participation, 10 theme-related activities, curriculum tie-in activities, sample questions for use in trivia games or scavenger hunts, ideas for activity sheets, a bibliography of related works, and a list of theme-related films. The units are highly flexible,

allowing any public or school library to adapt them to their particular needs. The Key to the Blue Workbook gives clear, thoroughly-explained answers to all exercises in the Blue Workbook, one of four workbooks in the Grammar for the Well-Trained Mind series, providing detailed, well-designed exercises in the correct use of English grammar. The Key to the Blue Workbook gives clear, thoroughly-explained answers to all exercises in the Blue Workbook, one of four non-sequential books in the Grammar for the Well-Trained Mind series, providing detailed, well-designed exercises in the correct use of English grammar. The Key, along with the accompanying Blue Workbook and the Core Instructor Text, make up Grammar for the Well-Trained Mind: a complete course that takes students from basic definitions (“A noun is the name of a person, place, thing, or idea”) through advanced sentence structure and analysis, all the grammar skills needed to write and speak with eloquence and confidence. This innovative program combines the three essential elements of language learning: understanding and memorizing rules (prescriptive teaching), repeated exposure to examples of how those rules are used (descriptive instruction), and practice using those rules in exercises and in writing (practical experience). Each year, parents and teachers go through the dialogue, rules, and examples in the Core Instructor Text; students follow along in the Workbook. This repetition solidifies the concepts, definitions, and examples in the student’s mind. There are four Workbooks, one for each year. Each Workbook contains the same rules and examples, but four completely different sets of exercises and assignments, allowing students to develop a wide-ranging knowledge of how the rules and examples are put to use in writing. Each Key to the Workbooks provides not only answers, but also explanations for the parent/instructor, and guidance as to when the answers might be ambiguous (as, in English, they often are). All of the rules covered, along with the repeated examples for each, are assembled for ongoing reference

in the Comprehensive Handbook of Rules (soon to be renamed as The Grammar Guidebook). Every step of the sentence diagramming process is gathered for reference, along with illustrations, in The Diagramming Dictionary. These will become the student's indispensable guide to writing through high school, into college and beyond. Step-by-step instruction takes students from the most basic concepts through advanced grammatical concepts such as modal and hortative verbs and multiple functions of noun clauses. Extensive diagramming exercises reinforce the rules and help technical and visual learners to understand and use the English language effectively. Each step of the diagramming process is illustrated and thoroughly explained to the student. Text for examples and exercises are drawn from great works of literature, as well as from well-written nonfiction texts in science, mathematics, and the social sciences. Regular review is built into each year of work. The Key accompanies one of four non-sequential workbooks, each containing new exercises that allow students to practice and apply the grammar principles under study. Although the Common Core and C3 Framework highlight literacy and inquiry as central goals for social studies, they do not offer guidelines, assessments, or curriculum resources. This practical guide presents six research-tested historical investigations along with all corresponding teaching materials and tools that have improved the historical thinking and argumentative writing of academically diverse students. Each investigation integrates reading, analysis, planning, composing, and reflection into a writing process that results in an argumentative history essay. Primary sources have been modified to allow struggling readers access to the material. Web links to original unmodified primary sources are also provided, along with other sources to extend investigations. The authors include sample student essays from each investigation to illustrate the progress of two different learners and explain how to support students' development. Each chapter includes these helpful

sections: Historical Background, Literacy Practices Students Will Learn, How to Teach This Investigation, How Might Students Respond?, Student Writing and Teacher Feedback, Lesson Plans and Materials. Book Features: Integrates literacy and inquiry with core U.S. history topics. Emphasizes argumentative writing, a key requirement of the Common Core. Offers explicit guidance for instruction with classroom-ready materials. Provides primary sources for differentiated instruction. Explains a curriculum appropriate for students who struggle with reading, as well as more advanced readers. Models how to transition over time from more explicit instruction to teacher coaching and greater student independence. “The tools this book provides—from graphic organizers, to lesson plans, to the accompanying documents—demystify the writing process and offer a sequenced path toward attaining proficiency.” —From the Foreword by Sam Wineburg, co-author of *Reading Like a Historian* “Assuming literate practice to be at the core of history learning and historical practice, the authors provide actual units of history instruction that can be immediately applied to classroom teaching. These units make visible how a cognitive apprenticeship approach enhances history and historical literacy learning and ensure a supported transition to teaching history in accordance with Common Core State Standards.” —Elizabeth Moje, Arthur F. Thurnau Professor, School of Education, University of Michigan “The C3 Framework for Social Studies State Standards and the Common Core State Standards challenge students to investigate complex ideas, think critically, and apply knowledge in real world settings. This extraordinary book provides tried-and-true practical tools and step-by-step directions for social studies to meet these goals and prepare students for college, career, and civic life in the 21st century.” —Michelle M. Herczog, president, National Council for the Social Studies *Developing Thinking Skills Through Creative Writing: Story Steps for 9-12 Year Olds* is a practical and easy-to-use teacher resource helping children across a wide age

and ability range to develop the skills necessary to write more effectively. Step-by-step instructions encourage children to tackle tasks of increasing difficulty while broadening their knowledge and experiences of fictional genres. With chapters separated into distinct genres: ghost story, fantasy, science fiction, history, pirate story, thriller and Gothic horror, this book: Offers a summary at the start of each chapter to help teachers select the relevant activities. Covers multiple aspects of storytelling from narrative structure, plots, characters and settings to vocabulary, word choice, sentence structure and punctuation. Provides a cross referencing grid showing which aspects of writing appear in each chapter. Includes guidance notes, extension activities and general tips. Adaptable to different teaching situations, this book offers the opportunity for teachers to work through the book genre by genre or take a 'skills route' with different activities from different chapters to create their own programme of study. Fully illustrated and supporting the requirements of the National Curriculum, *Developing Thinking Skills Through Creative Writing* is a valuable aid for all Key Stage 2 teachers. From the 1930s to 1965, discussions about modernisation, race and civic responsibility were as common as they are today. The youth of colonial Singapore wrote passionately about these issues, seeking to enkindle the idea of a nation that did not yet exist. The poetry and stories that encapsulate how they saw Singapore have become more, not less, relevant. In *Who Are You My Country?*, the youth of modern Singapore build on those stories and use them to create a vision for what our post-SG50 nation might look like. As the historical publications were to those students of the past, we hope this anthology will also be to us a shared space for the collective imagination of our Singapore. If you've ever sat down to confer with a child and felt at a loss for what to say or how to help move him or her forward as a writer, this book is for you. If you are a strong teacher of writing but are not seeing results from your students, this book is for you. Authors Kristin

Ackerman and Jennifer McDonough have been teaching writing for several years and know that conferring can be a murky and messy process--perhaps the hardest component of all. Written from the lessons they've learned through hard-won classroom experience--their mistakes and challenges--*Conferring with Young Writers* is based on what Kristin and Jen call the "three Fs" frequency, focus, and follow-up. They've created a classroom management system that offers routine and structure for giving the most effective feedback in a writing conference. This book will help writing teachers--and students--learn to break down and utilize the qualities that enable good writing: elaboration, voice, structure, conventions, and focus. The authors also provide the knowledge and skills it takes to confer well, which will help you improve as a writing teacher and give your students the confidence to think of themselves as writers. This book examines how the French invention and the Scottish re-invention of historical fiction prepared the genre's popularity during the nineteenth and twentieth centuries. When Derek Walcott was awarded the Nobel Prize, he was cited for "a poetic oeuvre of great luminosity, sustained by a historical vision, the outcome of a multicultural commitment." The lively interviews in this collection reveal Walcott's generous and brilliant intelligence as well as his strong, forthright opinions. He discusses the craft of poetry, the status of contemporary poetry and drama, his founding of the Trinidad Theatre Workshop, and his views on a number of influential writers, including Eliot, Auden, Brodsky, Heaney, and Naipaul. Boldly speaking his mind, Walcott takes many controversial positions on a wide range of subjects, such as Caribbean and U.S. politics, literary instruction in American universities, the proper role of sound in modern poetry, and the "ego" apparent in contemporary American poetry, and problems of race. Whatever the subject, Walcott responds fully and candidly. This work has been selected by scholars as being culturally important, and is part of the knowledge base of

Canonical but controversial works of radical modernism, John Dos Passos' novels continue to intrigue readers and challenge literary critics with their unique styles and provocative messages. This book offers an insightful and refreshing perspective on his fictional world, exploring the historical vision and utopian aspirations of his early novels in light of their dialectical politics in narrating modern American society. *History and Utopian Disillusion* convincingly shows that Dos Passos' epic-scale project is a radical hymn of faith dialectically inspiring the utopian resolution of American history by presenting entropic despair and disillusionment. Offers an overview of the literacy development of students in kindergarten and first grade and presents classroom activities, writing prompts, and lesson plans for journal writing, poetry, and nonfiction writing. The historical novel is an enduringly popular genre that raises crucial questions about key literary concepts, fact and fiction, identity, history, reading, and writing. In this comprehensive, focused guide, Jerome de Groot offers an accessible introduction to the genre and critical debates

that surround it, including: the development of the historical novel from early eighteenth-century works through to postmodern and contemporary historical fiction different genres, such as sensational or 'low' fiction, crime novels, literary works, counterfactual writing and related issues of audience, value, and authenticity the many functions of historical fiction, particularly the challenges it poses to accepted histories and postmodern questioning of 'grand narratives' the relationship of the historical novel to the wider cultural sphere with reference to historical theory, the internet, television, and film key theoretical concepts such as the authentic fallacy, postcolonialism, Marxism, queer and feminist reading. Drawing on a wide range of examples from across the centuries and around the globe *The Historical Novel* is essential reading for students exploring the interface of history and fiction. *The History of Texas* is fully revised and updated in this fifth edition to reflect the latest scholarship in its coverage of Texas history from the pre-Columbian era to the present.
